

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Board of Directors shall consist of a President, the First Vice-President, the Secretary, the Treasurer, the chairman of the Board of Trustees, and one additional member from each state, territory, or district, to be elected by the active members for the term of one year, or until their successors are chosen, and of all life directors of the National Educational Association. SEC. 11. That Congress may from time to time alter, repeal, or modify this act of incorporation, but no contract or individual right made or acquired shall thereby be divested or impaired.

The teachers of the United States of America assembled in the National Educational Association, at Los Angeles, California, July 8, 1907, viewing with pleasure and satisfaction the conditions which have brought about the Second Hague Conference, adopt the following minute as suggesting the principles to which they adhere:

We believe that the forces of this world should be organized and operated in the interests of peace and not of war; we believe that the material, commercial, and social interests of the people of the United States and of the whole world demand that the energies of the governments and of the people be devoted to the constructive and helpful pursuits of peace and that the people be relieved of the burdens of providing at enormous expense the armaments suggested by the competitive desire for supremacy in war; we further believe that the fear of war and the possibility of war would alike decline if the governments were to rely more upon the sentiment of the people and less upon the strength of their armies and navies. We recommend the following resolutions:—

1. We indorse and commend the sentiments expressed in the annual address by the President of this Association.
2. We urge upon our representatives at the Second Hague Conference to use their influence to widen the scope and increase the power of the Hague Tribunal.
3. While disclaiming any desire to suggest a program or to urge specific action, we do urge our representatives to secure the most favorable action possible upon international arbitration, the limitation of armaments, the protection of private property at sea, and the investigation of international disputes by an impartial commission before the declaration of hostilities.
4. We recommend to the teachers that the work of the Hague Conference and of the Peace Associations be studied carefully and the results given proper consideration in the work of instruction.

On motion the declaration was referred to the Committee on Resolutions to be reported back to the Association with recommendation at the closing meeting of the Convention.

An address on "Education and Democracy" was given by President A. B. Storms, of Iowa State College, Ames, Iowa.

The following Committee on Resolutions was appointed by President Schaeffer:

After announcement that the Nominating Committee would meet in Children's Hall, Auditorium Building, at 9 o'clock A. M., Wednesday, the convention adjourned to Thursday evening, July 11.

FOURTH SESSION—WEDNESDAY EVENING, JULY 10

The Association was called to order by President Schaeffer at 8 P. M.

Following an organ prelude by Bruce Gordon Kingsley, prayer was offered by Rabbi S. Hecht, of Los Angeles.

how to live righteously, healthfully, and happily, and that to accomplish this object it is essential that every school inculcate the love of truth, justice, purity, and beauty thru the study also of biography, history, ethics, natural history, music, drawing, and the manual arts.

9. The National Educational Association wishes to record its approval of the increasing appreciation among educators of the fact that the building of character is the real aim of the schools and the ultimate reason for the expenditure of millions for their maintenance. There are in the minds of the children and youth of today a tendency toward a disregard for constituted authority, a lack of respect for age and superior wisdom, a weak appreciation of the demands of duty, a disposition to follow pleasure and interest rather than obligation and order. This condition demands the earliest thought and action of our leaders of opinion and places important obligations upon school authorities.

10. The National Educational Association wishes to congratulate the secondary schools and colleges of the country that are making an effort to remove the taint of professionalism that has crept into students' sports. This taint can be removed only by leading students, alumni, and school faculties to recognize that inter-school games should be played for sportsmanship and not merely for victory.

11. The National Educational Association observes with great satisfaction the tendency of cities and towns to replace large school committees or boards, which have exercised thru subcommittees executive functions, by small boards which determine general policies, but intrust all executive functions to salaried experts.

12. Local taxation, supplemented by state taxation, presents the best means for the support of the public schools, and for securing that deep interest in them which is necessary to their greatest efficiency. State aid should be granted only as supplementary to local taxation, and not as a substitute for it.

13. We cannot too often repeat that close, intelligent, judicious supervision is necessary for all grades.

14. The National Educational Association approves the efforts of the Simplified Spelling Board and other bodies to promote the simplification of English spelling by the judicious omission of useless silent letters, and the substitution of a more regular and intelligible spelling in place of forms that are grossly irregular or anomalous, such amendments to be made according to the existing rules and analogies of English spelling, with a due regard to the standards accepted by scholars; and the Association hereby approves the simpler forms contained in the list of three hundred words now spelled in two or more ways, published by the Simplified Spelling Board, and containing the twelve simplified forms now used by this Association and directs that these simpler forms be used in the publications of the Association in accordance with the rule now in force, that if the writer of any paper published by this Association expressly so desires, his paper shall be printed in the old spelling.

15. Without seeking to determine the merits of coeducation versus separation of the sexes in higher institutions the Association recognizes that at present the demand for separate higher instruction for women is greater than existing colleges for women can supply. Moreover, the great colleges for women are almost all grouped in one section of the country. We urge upon the attention of the friends of higher education for women the needs of the western and southern states for this kind of educational institution.

16. The Association believes that secret societies, fraternities, and sororities are inimical to the best interests of schools and pupils, and we urge school authorities to abolish them in all secondary and elementary schools.

17. In teaching, as in every other kind of work, the best service is secured by finding the individual best fitted to the particular place as indicated by training, experience, and meritorious service; the National Educational Association accordingly heartily approves a merit system of promoting teachers and filling vacancies. We assert, furthermore, that the grounds upon which a teacher may apply for a position are preparatory training, experience, and meritorious service, in a word, professional fitness, alone; and that the use of other personal and political arguments is immoral in the teacher and a serious menace to a high professional standard.

18. The Association regrets the purely theoretical work which still characterizes much of our so-called training of teachers, especially in colleges and universities, and urges the establishment everywhere of training and practice facilities for the better preparation of teachers.

19. The National Educational Association believes that the forces of this world should be organized and operated in the interests of peace and not of war; we believe that the material, commercial, and social interests of the people of the United States and of the whole world demand that the energies of the governments and of the people be devoted to the constructive and helpful pursuits of peace and that the people be relieved of the burdens of providing, at enormous expense, the armaments suggested by the competitive desire for

supremacy in war. We further believe that the fear of war and the possibility of war would alike decline if governments were to rely more upon the sentiment of the people and less upon the strength of their armies and navies. We, accordingly, indorse and commend the sentiments expressed in the annual address by the president of this Association. We urge upon our representatives at the Second Hague Conference to use their influence to widen the scope and increase the power of the Hague Tribunal. While disclaiming any desire to suggest a program or to urge specific action we do urge our representatives to secure the most favorable action possible upon international arbitration, the limitation of armaments, the protection of private property at sea, and the investigation of international disputes by an impartial commission before the declaration of hostilities. We recommend to teachers that the work of the Hague Conference and of the peace associations be studied carefully and their results given proper consideration in the work of instruction.

20. The Association pledges itself anew to that time-honored conception of the teachers' office which makes it one of *unselfish* service in a great human cause, education; and it calls upon teachers everywhere to remember that this conception must be fundamental in the establishment and conduct of their professional associations.

Committee on Resolutions.

After the reading of the declaration of principles, C. P. Cary, of Wisconsin, moved the adoption of the report as read by Chairman Van Liew. The motion was seconded.

J. M. GREENWOOD, of Missouri: There is one clause in section fourteen of the report of the Committee on Resolutions which is mandatory and should go to the Board of Directors. It directs that three hundred words, adopted by the Simplified Spelling Board, be used in all the publications of the Association. That part of section fourteen should go to the Board of Directors, because it is administrative and not an appropriate matter for consideration and action at this time. It is not in order for this body to give such a direction to the Secretary of the Association

MR. CARY: I agree with the statements just made, and with consent of my second, I withdraw my motion.

A rereading of section 14 was called for and it was read by Chairman Van Liew.

MR. GREENWOOD: I move to strike out all that part of section 14 that begins with the word "direct." Mr. Cary seconded the motion.

E. O. VAILE, of Illinois: *Mr. President*, I regret exceedingly that my esteemed friend has forced this question to an issue here and now. The clause which he moves to strike out is the vital point in the resolution. Can we afford to strike it out? If his motion

*The official copy of the Declaration of Principles which was filed with the Secretary was not signed by any members of the Committee on Resolutions. Altho it bore the typewritten names of all members, it was known that some members were not present at Los Angeles. It was therefore necessary for the Secretary to get authority, by correspondence, from each member of the Committee for attaching the respective signatures to the report. This correspondence led to the full authorization of the signatures of the four members first named, altho Miss Chamberlain states that she opposed the adoption of section 14 until such time as it could receive full discussion and the approval of the active members, but finally agreed to it because she understood at the time that it was approved by a majority of the Committee.

*Superintendent F. G. Blair and President G. R. Glenn were not present at Los Angeles and were therefore not parties to the report. They however, authorize attaching their signatures to the Declaration of Principles, with a proviso excepting section 14. They both express dissent from the mandatory feature of that section as embodied in the report.

*Superintendent W. E. Hatch authorizes his signature to be added as approving the report with the exception of Section 14, in which he did not concur so far as it "directed" the immediate adoption of all of the new forms recommended by the Simplified Spelling Board.

*Mrs. Maude B. Hansche, authorizes her signature to be added with non-approval of section 14.

prevails the whole spelling reform movement will be throttled in the house of its friends and this great organization will stand before the world self-stultified and discredited.

We all noted with surprise in the papers this morning the action of our new board of directors last evening instructing our secretary to use hereafter the old spellings of "tho," "thru," "thoro" and their compounds. That resolution was introduced at the close of a strenuous session, after some directors had left the meeting and while others were engaged in the committee-room. No notice had been given that the subject would be brought up. By twelve ayes and eight nays, and without any discussion whatever, the resolution was passed, and this, the largest and most influential educational organization in the world, was made to appear in the dispatches this morning as trifling not only with its own record and dignity, but with a subject which by its own example and teaching for ten years the public has begun to regard as worthy of serious consideration. This resolution was introduced and passed not only in defiance of fair play but in defiance of the well-known sentiment of a large majority of our membership.

This is the first instance in all the ten years of this spelling agitation among us, in which any important action has been proposed without giving opportunity for full discussion—the first instance of what was not conspicuously a square deal.

The real question before us is, shall we indorse this reactionary step taken by our board of directors, or shall we assert our supremacy and countermand its order? You are the supreme court to settle this question. I cannot think for one moment that you are going to strike out the vital clause from this resolution.

Ten years ago this organization thru its board of directors, instructed its secretary to adopt thereafter in all official publications and correspondence such simplified spellings as have been recommended by a committee consisting of Dr. W. T. Harris, Superintendent Soldan of St. Louis, and Superintendent Balliet of Springfield, Mass.

From that day to this these twelve so-called N. E. A. short spellings have been used in all matter put forth by this Association, and thru the influence of its authority and example these short forms have grown gradually but constantly in public favor and use.

For four years, as you know, a proposition was pending before this Association, to give a considerable sum annually to foster this movement. Altho our active membership declared itself overwhelmingly in favor of the proposition, our constituted authorities prevented action upon it until such action became needless thru the courage of one of our philanthropic millionaires who stepped into the breach and offered the necessary funds, if a satisfactory number of prominent business and educational men would positively identify themselves with this cause and take personal charge of the expenditure of the money in promoting it.

This explains the origin of the Simplified Spelling Board, the creation of which is directly due to discussions and actions in this body or in the Department of Superintendence, a board on which several of your prominent members have seats and an influential voice. On this board there is not a man whose record and prominence in education, or science, or literature, or business, does not entitle his judgment to the confidence and indorsement of every man or woman in or out of this Association. There is not a single spelling reform zealot or fanatic on that board. They are level-headed, sensible, cautious, but progressive men—not only President Roosevelt, United States judges, and university presidents and professors, but the editor-in-chief of every English dictionary of any prominence either in this country or in England. Not a man among them who, for a moment, would countenance any extreme or impracticable step.

This is the board whose first practical recommendation our committee advises us to instruct our secretary to follow hereafter. Shall we stand by this board, for whose existence we are so largely responsible, or shall we desert it at this critical period?

Everybody knows that the 300 shorter spellings which constitute this first step consist of the simpler of two different spellings, both of which are fully established by good usage

and dictionary authority. There is not a word in the list which in any real sense can be called a new spelling.

It is stated by those who ought to know better that no publications have as yet adopted the N. E. A. spellings; that these spellings have made no headway. I hold in my hand a printed list of over 100 periodicals which now regularly use these twelve simpler forms or others of their own choosing. Here are the *New York Independent*, the *Springfield Republican*, the *Toronto Globe*, the *Minneapolis Journal*, the *Literary Digest*, the *Medical World*, the *New York School Journal*, and a number of scientific and trade journals. One of the leading dailies of this city (Los Angeles) has had under consideration the adoption of the N. E. A. spellings. Is there any truth or sense in saying that this does not indicate progress? What more can reasonably be asked? I am credibly informed that some of our leading monthlies are considering the formation of a league looking to the simultaneous adoption of the shorter spellings recommended by the Simplified Spelling Board. So potent have been the authority and example of this Association that the twelve N. E. A. spellings are now generally regarded as fairly well authorized. Today you will scarcely find an educational institution, or a city or county school superintendent or examining board in this whole country outside of the most benighted and backwoods districts who wishes or dares to discriminate against these short spellings when they appear in the manuscripts of pupils and teachers. The educated public now clearly accepts them as permissive forms. Yet, in spite of all this, we are now compelled to combat here an effort to have this organization turn its face backward in this matter and bring upon itself discredit and ridicule.

Nothing has occurred to justify this backward step. The cause is progressing. A well organized board, with funds in hand, almost the direct offspring of this Association, is now in the field to head this movement. It deserves, and it ought to have, and I believe it will have, our indorsement to the full extent indicated in the resolution reported by our committee.

I move as a substitute for the motion now pending that section 14 be allowed to stand as it is.

PRESIDENT SCHAEFFER: That motion would be out of order.

MR. VAILE: I move as a substitute for the motion now pending, that section 14 be allowed to stand as read: Seconded.

PRESIDENT SCHAEFFER: That motion is in order and is now open for discussion.

MR. GREENWOOD: Ten years ago I was one of eighteen directors who voted for the use of the list of twelve words, when seventeen directors voted against it. I state this to show that this has been understood to be the business of the Board of Directors. Now, if this mass meeting is to pass on matters of this kind, we could include 1,200 words just as well as 300. The point I make is, that it is the Board of Directors which should direct. This resolution proposes to direct the administrative policy of the Association when it has no authority to direct. I want my objection to go on record, because this is a legal question. We can here in this meeting express our opinions, but we should not assume to direct in matters that belong to the administrative body.

MISS SHIRLEY: I am in favor of progress, and opposed to taking any backward step. If this reform spelling was good last year, it is good this year. I know of no higher tribunal than the teachers themselves. If our directors do not do as we wish, we will depose them and not be run by a clique. Let us not stultify ourselves. I, as a teacher, have worked on this old spelling many years; as a pupil, I learned it, but I am not proficient in it today. Let us have something that is sensible.

MR. VAILE: I am sorry that my friend from Missouri has befogged this question. The Board of Directors is supreme in financial and administrative questions, but this spelling question is not an administrative question.

PRESIDENT SCHAEFFER: The question is on the substitute offered by Mr. Vaile.

The President, in answer to a question, stated that only active members should vote on Mr. Vaile's motion to leave section 14 as read by Chairman Van Liew.

MR. VAILE: I call for a rising vote.

A rising vote was ordered, which resulted in the motion being carried by 209 to 23. It was, however, impossible to determine if all voting were active members of the Association.

On motion, the Declaration of Principles was then adopted by a general vote of the convention, the vote not being confined to active members.

Chairman Van Liew then read the balance of the report of the Committee on Resolutions as follows:

Resolved, That we recognize in the presence at our meeting of an official delegation of distinguished representatives of the Ministry of Public Instruction of the United States of Mexico, an event of the first importance in the future relations of the American republics. We hail their coming as the auspicious beginning of educational interchange with neighboring nations, an interchange by which each country shall learn valuable lessons from the other, and which cannot fail to be of the utmost importance, therefore, to the future development of both. And we take this opportunity to transmit to the teachers of the Republic of Mexico the assurance of our very great interest and satisfaction in the work which they have already accomplished, and are now striving to accomplish thru the agencies of public instruction.

Resolved, That we express to Doctor William T. Harris, who has retired since our last meeting from his post as Commissioner of Education, sentiments of deep affection and high honor. In so doing we would bear witness to our very high appreciation of the splendid leadership he has long given us, of the intellectual, moral, and professional stimulus we have always felt from it, and of the tremendous value of his far-reaching labors.

Resolved, That the thanks of the National Educational Association are due, and are hereby most cordially tendered, to the residents of Los Angeles for their lavish and hearty hospitality; to the newspapers of Los Angeles, and to the associated press that have fully recorded the proceedings of the Association; to those railroads and other transportation companies that have aided in bringing about a large membership and attendance; to the teachers of Los Angeles and of California for their splendid support and entertainment, especially to those whose services upon local city and state committees have made the organization and conduct of the meeting a success, and to many of the citizens of California and Los Angeles, who are not teachers, but whose interest in the Association and efforts in behalf of this convention have been vital.

On motion the resolutions were adopted by the convention in a rising vote.

CHAIRMAN VAN LIEW: Mr. Secretary, in behalf of the Committee on Resolutions and of the entire Association, I move the adoption of the following resolution, and ask you o put the motion.

Resolved, That the thanks of the Association be tendered the retiring President, Superintendent Nathan C. Schaeffer, of Pennsylvania, and J. N. Wilkinson, of Kansas, the retiring Treasurer, for the faithful and efficient services which they have rendered the Association during the past two years.

The Secretary put the motion which was unanimously carried by a rising vote of the entire convention.

Chairman Van Liew then presented a resolution authorizing the President to appoint a committee of two to attend a conference to be held at Middle Bass Island, Lake Erie, in the first week in August, by the National Tax Commission, the National Mercantile Commission, and the National Grange, for the purpose of considering child-labor and compulsory education, including school taxation and instruction in rural schools.

On motion of Chairman Van Liew the resolution was adopted. President Schaeffer appointed Superintendent W. H. Elson, of Cleveland, Ohio, and President-elect E. G. Cooley, of Chicago, Illinois, as the committee representing the National Education Association.

Alexander Hogg, of Texas, presented the following resolution and moved its adoption:

WHEREAS, Our social equilibrium seems to be very unstable, as appears in strikes and other evidences of dissatisfaction upon the part of one class of our citizens in opposition to another class, and

WHEREAS, there is a wide and deep estrangement between those who labor with both their hands and brains, and those who labor with their brains alone, and

WHEREAS, this estrangement has grown into open defiance of the right and security of property, and

WHEREAS, peace at home, good feeling among our own citizens, should be first sought and first cultivated, and our youth should be instructed in this direction, therefore

Be it resolved, That it is the sense of this association, that it is the duty of the teachers, of this Republic, to enter at once upon a systematic source of instruction, which shall embrace not only a broader patriotism, but a more extended course of moral instruction, especially in regard to the rights and duties of citizenship, the right of property, and the security and sacredness of human life.

Upon motion the resolution was adopted by vote of the convention.

The president appointed E. O. Lyte of Pennsylvania and W. A. Edwards, of Californial to escort President-elect Edwin G. Cooley to the platform.

PRESIDENT SCHAEFFER: President Cooley, the teachers of America have watched with admiration the battles for good schools that you have for years been fighting, and they have shown their appreciation by electing you President of this Association. I now hand to you this gavel as the symbol of authority, with the hope that you will receive from the members the same loyal support that has been given to your predecessor. I now take pleasure in introducing to the convention President-elect Edwin G. Cooley of the National Education Association of the United States.

PRESIDENT COOLEY: Mr. President, ladies and gentlemen: It is certainly an honor to be prized by any schoolmaster, to be selected as presiding officer by this great body. I am more than appreciative of the honor that has been conferred. I cannot expect to have the opportunities, even if I had the power and ability, to push to a successful close, as many great enterprises as have fallen to my predecessor. I feel that we cannot express too highly our appreciation of what he has done.

I hope that I shall see the teachers of the East as well as the West at the next meeting. I shall do all in my power to bring about a successful convention in 1908. I cannot say more at this time. I thank you for the very kind reception you have given me.

After the singing of "America," under the leadership of James A. Foshay, of Los Angeles, the President declared the convention adjourned *sine die*.

IRWIN SHEPARD, *Secretary*.

BUSINESS SESSION—12 M., WEDNESDAY, JULY 10, 1907

MINUTES OF THE ANNUAL MEETING OF THE ACTIVE MEMBERS OF THE NATIONAL EDUCATIONAL ASSOCIATION

The meeting was called to order by President Nathan C. Schaeffer, at 12 M., in Choral Hall of the Temple Auditorium.

PRESIDENT SCHAEFFER: The first business on the docket is the twenty-first annual report of the Board of Trustees which has been approved by the Board of Directors. This report is in print, and will be distributed. It will not be read unless request is made. The usual action is to accept the report, and to order it printed in the volume of *Proceedings*. (Copies of the report were distributed to the members.)

S. T. BLACK, of California: I move that the report be accepted and printed in the volume of *Proceedings*. Motion was carried, and it was so ordered.

PRESIDENT SCHAEFFER: Next on the docket is the annual report of the Treasurer, which has been approved by the Board of Trustees and the Board of Directors. The report will now be distributed, and similar action is in order with reference to this report. (Copies of the report were distributed.)

GEORGE H. STOUT, of Pennsylvania: I move that the report be accepted and printed in the volume of *Proceedings*. Motion carried and so ordered.

PRESIDENT SCHAEFFER: Third is the report of the Secretary. This has been approved by the Board of Directors as printed, and will be distributed to the members. (Copies of the report were distributed.)

E. E. SCRIBNER, of Michigan: I move that the report of the Secretary be received and printed in the volume of *Proceedings*. Motion was carried, and it was so ordered.

PRESIDENT SCHAEFFER: Next is unfinished business, and the first item under this heading is a report to the Board of Directors by the Board of Trustees on the act of incorporation, and the action of the Board of Directors on said report. The Board of Trustees were instructed by the active members and the Board of Directors at the Asbury Park meeting in 1905 to secure if possible the passage by Congress of a proposed bill granting the Association a national charter of incorporation. As you have been officially informed by the Secretary the act incorporating the Association was passed by Congress and approved by the president of the United States, June 30, 1906. We will hear the report of the Board of Trustees to the Board of Directors concerning this matter.

Secretary Shepard read the report and the recommendations of the Board of Directors as follows:

To the Board of Directors of the National Educational Association:

Gentlemen: The Board of Trustees respectfully report that pursuant to a resolution adopted at the annual business meeting of the Association, held on July 6, 1905, the Board made application to Congress for a special act in the form approved by the Association at said meeting, to incorporate an association to be known as the "National Education Association of the United States" to succeed and continue the National Educational Association.

The Board further report that said act was passed by both houses of Congress with some technical amendments, not affecting the substance, and was approved by the President and became a law on June 30, 1906. The act provides that it shall take effect when the charter thereby granted is accepted and when by-laws are adopted by the members of the present Association.

The Board is of the opinion that the new charter, a copy of which is attached, offers the Association great advantages in assuring to it perpetuity of existence and a national character, in safeguarding its funds, and generally by increasing its powers and influence, and therefore unanimously recommends that the charter be accepted and that by-laws be adopted in accordance with the provisions of this act.

Respectfully submitted,

NICHOLAS MURRAY BUTLER, *Chairman*,
J. M. GREENWOOD,
NATHAN C. SCHAEFFER,
Trustees.

RESOLUTIONS ADOPTED AT A MEETING OF THE BOARD OF DIRECTORS HELD AT LOS ANGELES, CAL., JULY 8, 1907

Resolved, That the Board of Directors accept the report of the Board of Trustees and unanimously approve the recommendations therein contained;

Resolved, That the Board of Directors recommend the adoption by the Association of the following resolutions:

1. *Resolved*, That the National Educational Association hereby accepts the charter granted by an act of Congress entitled "An Act to Incorporate the National Education Association of the United States," passed June 30, 1906, and that the President and Secretary of this meeting be authorized and directed to execute and file with the recorder of deeds of the District of Columbia a verified certificate showing the acceptance by the Association of the charter granted by said act.

2. *Resolved*, That the proposed by-laws, of which notice was given at the annual meeting of the Association held on July 6, 1905, which are printed in full in the journal of said meeting, be and the same are hereby adopted to take effect immediately.

3. *Resolved*, That the Association adopt as its corporate seal a circle containing the title "National Education Association of the United States," and the dates "1857-1907."

4. *Resolved*, That the Association do now proceed to elect officers, and to organize under the charter granted by the act of Congress.

(Copies of the Report, of the Act of Incorporation and of other papers relating thereto were distributed to the members.)

O. J. CRAIG, of Montana: I move that this report of the Board of Trustees and the recommendations of the Board of Directors be received. The motion was carried without an opposing vote.

CHARLES H. KEYES, of Connecticut: I move the adoption of the report of the Board of Trustees and of the resolutions thereon, passed by the Board of Directors. The motion was seconded.

MR. BLACK, of California: I propose that we consider these resolutions separately and, with Mr. Keyes's permission, I move the adoption of resolution No. 1. The division of the question was agreed to by Mr. Keyes.

PRESIDENT SCHAEFFER: It has been moved and seconded that resolution No. 1 be adopted. Are you ready for the question?

MISS ELIZABETH SHIRLEY, of California: Mr. President, I rise to take exceptions to section seven of the Act of Incorporation so far as it refers to the finances of the Association. I see that the permanent funds of the Association are by this section placed in the hands of the trustees. Now, of course, the money belongs to us; it is the teachers' money. I see that the trustees alone can make recommendations for the expenditure of these funds; that such recommendation can be referred to the active members for approval and if it is carried by a three-fourths vote of active members it is to be returned to the directors and they have the power to strike out and nullify the action of the members. That is, we leave the initiative and the referendum in the hands of committees.

Now, I stand for democracy. I stand for this National Educational Association as an association *of* the teachers, and *for* the teachers, and *by* the teachers, and I think that the provision referred to in section seven would be unsafe. I think that it would be unbusiness-like, and I think it would be undemocratic. We call the United States a democratic government, yet we would put our finances into the hands of a committee who will dictate to us what we shall do with them. Now, men, they say, are masters of their fortunes. You pass this motion accepting the act of Congress and the members of the National Educational Association of the United States will not be masters of their fortunes, so far as their finances are concerned. We shall have erected an oligarchy from under whose dominion we may peer about and find ourselves dishonored. It is unsafe, because it puts the power all in the hands of a few trustees and we, the people, have nothing whatever to say about what shall be done with our own money.

It is true, and "pity 'tis, 'tis true" that graft, as you know, is stalking through the American cities. Not in California alone; California is a kindergarten to what some of the cities in the east are. Go into the great cities; go into Chicago, Milwaukee, Omaha, New York, and Philadelphia, Mr. President, and you will find the grafter there with his money bags debauching the trustees and the school boards; buying special privileges. You will see the great American concern, with its thirty pieces of silver, buying the superintendents and forcing them up into high places.

Now, are we safe in running the risk of putting our property, our money, into the hands of people who may be bought and sold?

Voice from the audience: You elect your committees, trust them.

PRESIDENT SCHAEFFER: The lady has the floor.

MISS SHIRLEY: I say that it is undemocratic, and even if we were assured that every dollar of our money would be righteously administered, it is unbusiness-like. We profess to teach the pupils of America business principles. When they pick up this constitution they will see that the teachers are not capable of directing their own business, but have to put it into the hands of committees who will do the work for them. Now, if you can find in the confines of this great American country, any business man who will conduct his business on the principles of that section, I shall be surprised. Shall the teachers tie their hands and give their money into the hands of a committee? Shall they have no voice whatever in the administration of their money, or say what shall be done with it?

Now, we are to go out and teach business principles. If we are unable to take care of our own business, how can we stand up before the youth of America and talk to them about business principles? How can we face these pupils and talk of democracy when we put the initiative and the referendum into the hands of a committee? Let us vote down

this resolution, so that we can look the youth of America in the face when we talk of democracy. It is a fact that we need to guard the teachers of America in every way, and we should never, in our own business, adopt a measure that is so undemocratic. Mr. President, I thank you.

The "question" was called for by many members.

PRESIDENT SCHAEFFER: Are there further remarks? All in favor of the adoption of the first resolution read in your hearing say "aye;" (An apparently unanimous response of ayes). Opposed, "no." (No opposing vote was heard.)

PRESIDENT SCHAEFFER: The ayes have it. The resolution is adopted and the charter granted by act of Congress has been accepted and adopted by a unanimous vote of the active members of the National Educational Association.

It was moved and seconded that the second resolution be adopted. The motion was carried without opposing vote and the president declared the proposed by-laws adopted without amendment by unanimous vote.

On motion the third and fourth resolutions were successively carried by unanimous vote.

On motion of Mr. Greenwood, of Missouri, seconded by Mr. Carr, of Ohio, the four resolutions recommended by the Board of Directors were then adopted as a whole.

Joseph Swain, of Pennsylvania, chairman of the Committee on Nominations, being called upon by the chair, presented the report of that Committee as follows:

To the Active Members of the National Education Association:

E. T. FAIRCHILD
Secretary.

On motion of Mr. Carr, of Ohio, the report of the Committee on Nominations was received, and the Secretary was instructed to cast the ballot of the members present for the nominations as made. The Secretary reported the ballot cast as directed and the chairman announced the nominees elected as officers for the ensuing year.

President-elect Edwin G. Cooley, being called for, was invited to the rostrum and introduced by President Schaeffer. Mr. Cooley spoke briefly, expressing his high appreciation of the honor conferred by election to the office of president of the newly organized National Education Association of the United States and giving assurances that his best efforts would be directed, with the co-operation of the members, to bring about a successful convention in 1908.

C. G. PEARSE, of Wisconsin: Mr. Chairman, I move that section two of article five of the by-laws of the National Education Association, adopted this date, be so amended as to read as follows:

Section 2. The Council shall consist of 120 members, selected from the membership of the Association. Any member of the Association identified with educational work is eligible to membership in the Council.

That section three of article five be amended so as to read as follows:

Section 3. The Board of Directors shall annually elect ten members, and the Council shall elect ten members, each member to serve for six years, or until his successor is elected.

MR. KEYES, of Connecticut: I rise to a point of order. I think article eight of the by-laws just adopted provides for their amendment. This article reads that these by-laws may be amended at any annual meeting by the unanimous vote of the members present or by a two-thirds vote of the members present, provided that the alteration, or amendment, has been proposed in writing at a previous annual meeting. The motion is evidently not in order since the amendment has not been proposed in advance. I should like to have the opinion of the Counsel of the Board of Trustees on this point.

PRESIDENT SCHAEFFER: I think the active members will be pleased to hear the opinion of our Counsel, Mr. Pine, of New York, as to whether we should, or can, amend the by-laws before the Certificate of Incorporation has been filed, according to the requirements of the act of Incorporation.

MR. PINE, of New York: Mr. President; it is my opinion that under the by-laws, it is possible to adopt the amendment proposed by Mr. Pearse only by unanimous consent. I should think it would be more regular that notice be given at this meeting in order that the proposed amendment might come before the next annual meeting.

MR. PEARSE: Mr. Chairman, in view of the opinion of Mr. Pine, I will give the notice, as suggested, and let the matter lie over until the next annual meeting.

PRESIDENT SCHAEFFER: Notice is given by Mr. Pearse of the proposed amendment which will come up for action at the next year's meeting.

MR. BAKER, of Colorado: I rise to speak, representing the National Association of State Universities, preliminary to the introduction of a resolution. As it is important that a preliminary explanation be made, I trust that the Chair will be willing to waive the formality of reading the resolution first.

At the meeting of the National Association of State Universities held in Baton Rouge, last November, a report on the question of a national university was made, and the recommendations of the committee on that subject were unanimously adopted. A standing committee was appointed to further the cause, consisting of President Edmund J. James, of the State University of Illinois, President W. O. Thompson, of the State University of Ohio, and President Brown Ayres, of the University of Tennessee. This committee was instructed to ask the National Educational Association to appoint a committee to further the cause of a national university, or of some kind of organization which would enable the students of this country to use the many facilities in Washington which are extremely valuable in original research.

We understand that the Association has for a long time been committed to the idea of some kind of an organization at Washington that would facilitate the use of the valuable and extensive government collections. We are not asking that a committee of investigation be appointed, but a committee to appeal to Congress to take up the matter and investigate it, and in doing so, to co-operate with the movement that has been organized by the Association of State Universities. The last investigation shows two things: first, that the facilities there available for the scholars of this country, and of the world, can be enumerated under some seventy distinct heads, with many subdivisions under some of these heads, and that here is an opportunity to promote one of America's greatest educational interests.

With this explanation, I will give way to President W. O. Thompson, the only member of that standing committee present, who will offer the resolution.

PRESIDENT SCHAEFFER: President Thompson has the floor.

MR. THOMPSON, of Ohio: Mr. Chairman, the explanation which has been made by President Baker is a sufficient introduction of the resolution which I shall now offer and which has been drawn up in accordance with the instructions of the Association of State Universities as follows:

WHEREAS, The National Association of State Universities in session November, 1906, took action looking toward the establishment of a graduate university owned and controlled by the federal government, and appointed a permanent committee to aid the cause and to present the matter to the National Educational Association, and to urge the naming of a committee instructed to co-operate in securing a national university; therefore be it

Resolved, That we, the active members of the National Educational Association reaffirm the previous declarations of this Association concerning the establishment of a graduate university at Washington, D. C., and express our belief in the wisdom of such a university, or some form of organization that shall utilize for research the facilities assembled in Washington, to be owned and controlled by the federal government; that a committee of three be appointed to promote the cause; and that an appropriation not to

exceed \$500 be recommended to the directors to provide for the necessary expenses of the committee.

I move the adoption of the resolutions as read. It was seconded and carried.

On motion, the resolution was then referred to the new Board of Directors with request that the desired appropriation of \$500 be granted for the expenses of the Committee.

PRESIDENT SCHAEFFER: The Board of Directors, whose term expires tomorrow, adjourned on Monday last to meet at the call of the chairman should a meeting be necessary. The chair finds that no such meeting is necessary, therefore no meeting will be held. The new Board of Directors will hold its first business meeting at 4:30 P. M., Thursday, July 11, in the Children's Hall of the Temple Building.

MR. HARVEY, of Wisconsin: At the last meeting of active members at Asbury Park, in July, 1905, amendments were proposed to the by-laws as they then existed, which have not yet been acted upon. I believe this is a proper matter for consideration at this time and therefore move that these proposed amendments be laid on the table. The motion was carried and it was so ordered.

There being no other business, a motion to adjourn was made and carried and the chairman declared the annual meeting of active members adjourned.

IRWIN SHEPARD, *Secretary*.

PROCEEDINGS OF THE BOARD OF DIRECTORS FOR 1906-1907

The annual meeting of the Board of Directors was called to order in Children's Hall of the Auditorium Building, Los Angeles, California, at 11:00 A. M., July 8, 1907, by President Nathan C. Schaeffer. The following Directors responded to roll-call:

Total number of directors present at this meeting, thirty-two.

The Twenty-first Annual Report of the Board of Trustees for the year July 1, 1906, to June 30, 1907, was presented and printed copies of the same were distributed to the directors. On motion of Director J. M. Greenwood, the reading of the report was dispensed with and the report was approved and ordered printed in the annual volume of *Proceedings*.

The reports of the Treasurer, J. N. Wilkinson, of Emporia, Kan., for the years 1905-06 and 1906-07 were presented. The report for the first of the two years was adopted as printed in the anniversary volume. The report for 1906-07 was read in full and on motion was referred to the Board of Trustees for audit and approval.

The report of Secretary, Irwin Shepard, embodying a review of the reports of the Secretary from 1893 to 1907 was next presented and printed copies of the same were passed to the directors. On motion, the reading of the report was dispensed with and the report was approved as printed in the anniversary volume.

Secretary Shepard then made a brief statement with regard to railroad rates to the effect that certain questions remained unsettled between the Association and the railroads of the Trans-Continental Association regarding the expense of validation of the tickets for return of National Educational Association members at Los Angeles. Since the question was a complicated one the Secretary advised that it be referred to a committee for

negotiation and settlement. On motion of Director L. D. Harvey, of Wisconsin, the entire question of validation and other expenses was referred to the Executive Committee and Board of Trustees with power to act.

The Secretary then called attention to the action of the Board of Directors at its meeting July 4, 1905, receiving the petition of Louis C. Monin, dean of the Armour Institute of Technology, and others, for the organization of a new department of the National Educational Association to be known as the Department of Technical Education. This petition was referred to the Executive Committee of the Association with power to act. The Secretary reported that the Executive Committee at its meeting in Louisville, Ky., Feb. 28, 1906, voted to approve the petition and to authorize the establishment of the Department of Technical Education. On motion the action of the Executive Committee was approved by the Board of Directors.

In the absence of the chairman of the Board of Trustees, Nicholas Murray Butler, of New York, J. M. Greenwood, of Missouri, secretary of the Board, read the following special report of the Trustees:

To the Board of Directors of the National Educational Association.

Gentlemen: The Board of Trustees respectfully report that pursuant to a resolution adopted at the annual business meeting of the Association, held on July 6, 1905, the Board made application to Congress for a special act in the form approved by the Association at said meeting, to incorporate an association to be known as the "National Education Association of the United States" to succeed and continue the National Educational Association.

The Board further report that said act was passed by both houses of Congress with some technical amendments, not affecting the substance, and was approved by the President and became a law on June 30, 1906. The act provides that it shall take effect when the charter thereby granted is accepted and when by-laws are adopted by the members of the present Association.

The Board is of the opinion that the new charter, a copy of which is attached, offers the Association great advantages in assuring to it perpetuity of existence and a national character, in safeguarding its funds and generally by increasing its powers and influence, and therefore unanimously recommends that the charter be accepted and that by-laws be adopted in accordance with the provisions of this act.

Respectfully submitted,

NICHOLAS MURRAY BUTLER, *Chairman*,
J. M. GREENWOOD,
NATHAN C. SCHAEFFER,

Trustees.

On motion of Director John R. Kirk, of Missouri, the report was accepted and the following resolutions were unanimously adopted.

Resolved, That the Board of Directors accept the report of the Board of Trustees and unanimously approve the recommendations therein contained;

Resolved, That the Board of Directors recommend the adoption by the Association of the following resolutions:

1. *Resolved*, That the National Educational Association hereby accepts the charter granted by an act of Congress entitled "An Act to incorporate the National Education Association of the United States," passed June 30, 1906, and that the President and Secretary of this meeting be authorized and directed to execute and file with the recorder of deeds of the District of Columbia a verified certificate showing the acceptance by the Association of the charter granted by said act.

2. *Resolved*, That the proposed by-laws of which notice was given at the annual meeting of the Association held on July 6, 1905, which are printed in full in the journal of said meeting, be and the same are hereby adopted to take effect immediately.

3. *Resolved*, That the Association adopt as its corporate seal a circle containing the title "National Education Association of the United States," and the dates "1857-1907."

4. *Resolved*, That the Association do now proceed to elect officers, and to organize under the Charter granted by the Act of Congress.

The Chairman stated as the next order of business the election of three trustees to fill vacancies as follows:

One Trustee to succeed Nicholas Murray Butler, for the term to expire 1910.

One Trustee to succeed N. C. Dougherty, resigned, for the term to expire 1908.

One Trustee to succeed Albert G. Lane, deceased, for the term of three days to expire July 11, 1907.

On motion, Nicholas Murray Butler, of New York, was unanimously elected to succeed himself for the term to expire July, 1910.

The names of C. G. Pearse, of Wisconsin, and E. G. Cooley, of Illinois, were put in nomination to succeed N. C. Dougherty, resigned. An election by ballot was ordered. Charles H. Keyes, of Connecticut, and A. H. Chamberlain, of California, acted as tellers. The ballot resulted in C. G. Pearse receiving fifteen votes and E. G. Cooley fourteen.

The Chairman announced the election of C. G. Pearse as trustee to succeed N. C. Dougherty, resigned, for the term to expire 1908.

H. B. Brown, of Indiana, was on motion elected to succeed Albert G. Lane, deceased, for a term of three days to expire Thursday, July 11, 1907.

Work, Texas; William Allison, Utah; Charles P. Cary, Wisconsin; Estelle Reel, Wyoming.

Directors present, thirty-three.

PRESIDENT COOLEY: The first order of business is a communication from the Department of Secondary Education, concerning the report of the Committee on the Professional Preparation of Teachers which was referred to that department by the Board of Directors at its meeting July 8, with request that it be reported back to this Board at this time with recommendations.

The secretary read the communication as follows:

To the Board of Directors of the National Educational Association:

The Departments of Secondary Education of Normal Schools, and of Higher Education have had under consideration the report of the committee appointed by the Secondary Department at its meeting in Asbury Park, July, 1905, on the Preparation of Teachers for Secondary Schools and said departments jointly recommend that the report be approved and ordered printed by the Board of Directors, both in the volume of *Proceedings* of this meeting, and also in pamphlet form convenient for distribution. Also that an appropriation of \$30 be made to reimburse the committee for clerical expenses in preparing the report.

(Signed)

EUGENE W. LYTLE,

President, Department of Secondary Education.

DIRECTOR BARTHOLOMEW, of Kentucky: I move that the recommendation be concurred in, that the report be printed as recommended. The motion was carried, and it was so ordered.

Secretary Shepard reported that the following resolutions and request for an appropriation had been referred to this Board by the Active Members of the Association as follows:

Extract from minutes of meeting of active members held July 10, inst.

W. O. Thompson, of Ohio, offered the following resolution and moved its adoption:

WHEREAS, The National Association of State Universities in session November, 1906, took action looking toward the establishment of a graduate university owned and controlled by the federal government, and appointed a permanent committee to aid the cause and to present the matter to the National Educational Association, and to urge the naming of a committee instructed to co-operate in securing a national university, therefore be it

Resolved, That we, the active members of the National Educational Association,

reaffirm the previous declarations of this Association concerning the establishment of a graduate university at Washington, D. C., and express our belief in the wisdom of such a university, or some form of organization that shall utilize for research the facilities assembled in Washington, to be owned and controlled by the federal government; that a committee of three be appointed by the President of the Association to promote the cause; and that an appropriation not to exceed \$500 be recommended to the directors to provide the necessary expenses of the committee.

The motion was duly seconded and carried. On motion, the resolution was referred to the new Board of Directors with the request that the desired appropriation of \$500 be granted for the expenses of the committee.

DIRECTOR J. M. GREEN, of New Jersey: I move that this matter be laid over until the next meeting and that when presented again it be accompanied by a review of what the Association has already done in the direction of the resolution presented. I know that there was for many years a standing committee on this subject and that much work was done. Doubtless a review of the work of this committee would be a valuable guide. (Seconded.)

DIRECTOR O. J. CRAIG, of Montana: This movement comes from the National Association of State Universities and was adopted by that Association at its session in Baton Rouge, La., in November last. The purpose of this resolution is to secure the indorsement and co-operation of the National Education Association as stated by President Baker, of Colorado, yesterday in the meeting of Active Members.

DIRECTOR J. M. GREENWOOD, of Missouri: I hope that the motion to postpone will not prevail, but that action may be deferred until the report of the Committee on Investigations and Appropriations be received since the matter will be included in that report.

The motion to postpone until the next meeting was withdrawn by Director Green with consent of the one who seconded the motion. It was then moved and carried that action on the matter be delayed until the report of the Committee on Investigations and Appropriations of the National Council had been presented.

DIRECTOR N. C. SCHAEFFER, of Pennsylvania: Section eight of the newly adopted charter of the Association provides that the principal office of the corporation shall be in the city of Washington, D. C. This is in accordance with the usual requirements for all associations or corporations organized by special act of Congress. This does not, however, prevent the Association from maintaining an office or offices elsewhere within the United States for the transaction of business as may be determined by the Board of Directors or otherwise in accordance with the by-laws. I therefore offer the following resolution and am authorized to state that Dr. W. T. Harris has kindly tendered the use of his residence on Fairmont Street in the city of Washington as the principal office of the Association:

Resolved, That pursuant to section eight of the charter, 1360 Fairmont Street, N. W., in the city of Washington, D. C., be, and the same is hereby designated as, the principal office of the National Education Association of the United States, and that the Honorable W. T. Harris be requested and authorized to act as the representative of the Association having charge of such office.

I move the adoption of the resolution. The motion was seconded and carried and it was so ordered.

DIRECTOR CHAS. H. KEYES, of Connecticut: I move that the office of the Secretary of the National Education Association of the United States be continued in the city of Winona, in the state of Minnesota as heretofore, and that this office shall be the executive office of the Association. The motion was seconded and carried.

DIRECTOR SCHAEFFER: The following resolution should be acted upon at this time in order to carry out the provisions of the new charter adopted at the meeting of active members yesterday.

Resolved, That the Board of Trustees be requested to have prepared a suitable design for the corporate seal of the National Education Association of the United States, and to submit the same at the meeting of the Board of Directors to be held in July, 1908.

I move the adoption of the resolution.

The motion was seconded and carried, and it was so ordered.

PRESIDENT COOLEY: The Secretary will read a communication from the National Council of Education.

The Secretary read the following communication:

Irwin Shepard, Secretary National Educational Association, Los Angeles, California:

Dear Sir: I am directed by the National Council of Education to submit through you to the Board of Directors the following report of the Committee on Investigation and Appropriations of said Council.

(1) That the sum of five hundred dollars (\$500), or so much thereof as may be necessary, be appropriated to make a preliminary inquiry into the contemporary judgment as to the culture element in education, and the time that should be devoted to the combined school and college course and that the president of the Council appoint a committee of five to make a report at some future time to the National Council of Education on this subject.

(2) That the sum of five hundred dollars (\$500), or so much thereof as may be necessary, be appropriated to defray the expenses of a committee to be appointed by the president of the Council to investigate and submit a tentative report on a system of teaching morals in the public schools of the United States.

(5) That a committee be appointed by the president of the Council to consider and make a preliminary report on provisions for exceptional children in the public schools and that the sum of five hundred dollars (\$500), or so much thereof as may be necessary, be appropriated to defray the expenses of this committee.

J. M. GREENWOOD, *Chairman*,
FRANK A. FITZPATRICK,
ELMER E. BROWN,
LORENZO D. HARVEY,
Committee.

DIRECTOR JOHN R. KIRK, of Missouri: I move that the report of the Committee on Investigations and Appropriations of the Council be received, and that the several committees recommended be authorized and the corresponding appropriations granted. The motion was seconded by Director George B. Cook, of Arkansas.

SECRETARY SHEPARD: I desire to ask if the first resolution does not have reference to the same subject as is under consideration by a committee now in existence of which President Charles W. Eliot is chairman. This committee made a report of progress at the Asbury Park meeting, but has never been discharged. Will there not be confusion if a new committee is created while the former one is in existence?

DIRECTOR GREENWOOD: I am one of the five members of the committee of which President Eliot is chairman. This committee was appointed in 1903 to report on the

advisability of an investigation proposed by President Baker of the University of Colorado concerning the contemporary judgment as to the culture element and economy of time in education. The committee was unable to determine just what President Baker had in mind as the field for the proposed investigation. The committee made what it considered as a final, but not unanimous, report at the Asbury Park meeting. It was therefore thought advisable by the Committee on Investigations and Appropriations to appoint a new committee of which President Baker ought to be chairman.

On motion, it was ordered that each recommendation of the report should be voted upon separately.

After some discussion it was ordered that the recommendation for the appointment of a Committee of Investigation into the "Contemporary Judgment as to the Culture Element in Education and the Time That Should Be Devoted to Combined School and College Courses" be approved and that \$500 be appropriated for the expenses of the committee.

On motion of Director Estelle Reel, of Wyoming, recommendation No. 2 was approved and \$500 appropriated to defray the expenses of a committee to investigate and report on a "System of Teaching Morals in the Public Schools of the United States."

On motion of Director W. H. Bartholomew, of Kentucky, recommendation No. 3 was adopted and the sum of \$500 appropriated for the use of the committee on "Industrial Education for Rural Schools." It was also ordered that the present committee of five should be reduced to a committee of three to be appointed by the president of the Council.

On motion, recommendation No. 4 was adopted and it was ordered that a committee be appointed by the president of the Council to report on the "Shortage in the Supply of Teachers, Conditions, Causes, and Remedies," and that the sum of \$500 be appropriated for the expenses of the committee.

On motion, recommendation No. 5, providing for a committee to report on "Provisions for Exceptional Children in Public Schools," and an appropriation of \$500 for the expenses of the committee was approved.

On motion of Director Greenwood the Committee on the Investigation, proposed by President Baker, as to the culture element in education of which President Eliot was chairman was discharged.

On motion of Director Greenwood the resolution concerning an appropriation for the expenses of a committee on a national university was again taken up for consideration. President James H. Baker, of the University of Colorado, being present, was recognized by the chair and made a brief explanation of the purposes of the proposed investigation and urged favorable action upon the recommendation of the active members that the proposed committee be appointed and the sum of \$500 be appropriated for their expenses.

Following a discussion by Directors Prince, of Massachusetts; Greenwood, of Missouri; Towne, of Nebraska, and Craig, of Montana, the motion of Director Green of New Jersey was renewed that action on the question be deferred for one year. This motion being put to vote was lost.

On motion of Director O. J. Craig, of Montana, the resolution adopted by the active members was approved and \$500 appropriated for the expenses of a Committee on a National University to be appointed by the President of the Association.

The chairman announced that the next order of business was the election of a trustee to serve four years to succeed H. B. Brown, of Indiana, whose term expires at this meeting.

Director T. A. Mott, of Indiana, nominated H. B. Brown to succeed himself as trustee for the term to expire 1911. Director Craig, of Montana, seconded the nomination and moved that the secretary be instructed to cast the ballot of the Board of Directors for H. B. Brown to succeed himself. This motion was seconded and carried. The ballot was so cast, and Mr. Brown was declared duly elected.

The chairman announced the next order of business to be the election of a member of the Executive Committee for the term of one year to succeed W. T. Harris, term expired.

L. D. Harvey, of Wisconsin, and W. T. Harris, of Washington, D. C., were nominated for this office.

On motion, it was ordered that the directors ballot for the election of the member of the Executive Committee. Directors C. P. Cary, of Wisconsin, and E. O. Lyte, of Pennsylvania, were appointed to act as tellers. The ballot resulted in W. T. Harris receiving nineteen, and L. D. Harvey fifteen, votes.

On motion, of Director Green of New Jersey, W. T. Harris was declared unanimously elected as a member of the Executive Committee to succeed himself.

President Cooley named as a committee on nominations of members of the National Council to fill vacancies: Directors J. M. Greenwood, of Missouri; Charles H. Keyes, of Connecticut; O. J. Craig, of Montana; William Allison, of Utah, and T. A. Mott, of Indiana. The Committee on request of its chairman were excused to prepare their report.

President Cooley announced the next order of business to be the consideration of invitations for the next convention.

On motion, the usual roll call of states was dispensed with and the chairman was directed to recognize a representative from the city of Cleveland, Ohio.

President F. H. Haserot, of the Cleveland Board of Education was introduced by President Cooley and addressed the convention at some length extending to the Board of Directors a cordial invitation from the city of Cleveland and various organizations of that city and of the state of Ohio to hold the next annual convention in that city.

After brief discussion on motion of Director Henry G. Williams, of Ohio, the following resolution was adopted:

Resolved, That this Board of Directors favors holding the next convention of the National Education Association in the city of Cleveland, Ohio, provided railway, hotel, and other arrangements are made satisfactory to the Executive Committee, and also provided that if the Executive Committee find it impossible to secure satisfactory railway rates and other arrangements for a meeting in the city of Cleveland, they are hereby authorized to select some other place.

Following this action Director C. P. Cary, of Wisconsin, announced that the city of Milwaukee desired to extend an invitation to the Board of Directors to hold the convention for 1909 in that city.

Director Charles E. Chadsey, of Colorado, announced that Denver invited the Directors to select that city for the convention in 1909.

Director John R. Kirk, of Missouri, announced that Kansas City would invite the Association to hold its meeting in that city in 1910.

Director W. R. Hatfield, of Illinois, announced that Chicago would like to have the convention for 1913.

President Cooley announced communications as the next order of business.

The Secretary read the following communication from the Department of Manual Training:

N. E. A. Headquarters, Los Angeles, Cal., July 11, 1907.

Mr. Irwin Shepard, Secretary National Education Association, City:

Dear Sir: I would respectfully inform you that it is the intention of the Department of Manual Training to create a committee for the purpose of investigating the subject of courses of study for elementary schools and to make request of the Board of Directors for an appropriation of \$300 to \$500 to defray necessary expenses.

REPORT OF COMMITTEE ON RESOLUTIONS OF THE MANUAL-TRAINING DEPARTMENT OF THE NATIONAL EDUCATIONAL ASSOCIATION NOW IN SESSION, JULY 11, 1907

WHEREAS, The accumulative work of the department during the last two years seeking a more rational statement of courses of manual training, seems now to indicate a necessity for some definite work by a special committee.

Be it therefore resolved, That the manual-training department of the National Educational Association, now in session, recommend the appointment of a committee for the purpose of collecting data of the manual-training work done throught this country, that suggestive courses adaptable to various conditions found therein, may be formulated by them.

Further be it resolved, That this committee consist of three persons now actively engaged in manual training, with power to add to their number, a superintendent of schools, a teacher of art, a child's study specialist, a grade teacher, and a representative from such other departments as may be deemed advisable to increase the efficiency of their work.

Be it further resolved, That the aforesaid committee of three be appointed by the president of this department.

Be it further resolved, That this committee be appointed for a term of two years, being requested to make a preliminary report at the next meeting of this association.

Resolved, That a committee of one be appointed by the president of this department to make formal application to the Board of Directors of the Association for an appropriation to defray the expenses of the committee.

Respectfully submitted,

DIRECTOR CREE T. WORK, of Texas: I have been appointed by the Committee of the Manual Training Department to urge favorable action on the report which you have just received from that department.

On motion, the application of the Department of Manual Training was received and approved and it was ordered that the desired committee be appointed by the president of the Department of Manual Training and that \$500, or so much thereof as may be necessary, be appropriated for the expenses of that committee.

DIRECTOR E. ORAM LYTE, of Pennsylvania, presented the following petition and urged its adoption by the Board of Directors:

DIRECTOR JOHN MACDONALD, of Kansas: At a meeting of the Board of Directors in Washington in 1898, they adopted certain forms of spelling for twelve words. This action was carried by a vote of eighteen to seventeen. I think there are three members present in this Board of Directors who were present at that meeting. The change in spelling at that time affected twelve words. I now propose that action be rescinded so far as it applies to three of the twelve words. Nine years is sufficiently long to find out whether the American press and American people are going to follow the lead of the Board of Directors at its Washington meeting. During these nine years the American press has refused to have anything to do with these words. I therefore offer the following resolution and move its adoption:

Resolved: That the Secretary of the National Education Association be hereby instructed to use the standard spelling in the printing of the following words wherever they may occur in the *Proceedings* or in any other publications of the Association: *Through* in all its compounds and variations; *Thorough* in all its compounds and variations; *Though* in all its compounds and variations.

The resolution of Director MacDonald was adopted by a vote of twelve to eight, thirteen directors not voting.

The committee on the nomination of members of the National Council of Education reported through its chairman, Charles H. Keyes, of Connecticut, as follows:

To the Board of Directors of the National Education Association:

On motion, the report of the Committee on Nominations of members of the Council was accepted and adopted and the nominees were declared elected to the several terms indicated in the report.

REPORT OF THE SECRETARY OF THE NATIONAL EDUCATION ASSOCIATION OF THE UNITED STATES

SECRETARY'S OFFICE, WINONA, MINN., December 14, 1907

To the Board of Trustees of the National Education Association:

GENTLEMEN: In submitting report of the business of the Secretary's office, for the year 1905-06 permit me to refer you to the "Review of the Reports of the Secretary" (pp. 731-41, *Fiftieth Anniversary Volume*). By that report it will be seen that there was a slight loss in the number of active memberships last year, due largely to some abatement of interest in the Association by members of a certain class because no convention was held. While the loss by withdrawal amounted to 644, and 46 by death, total 690, there were enrolled 603 new members, largely from those holding prominent educational positions who desired to become permanently identified with the future work of the Association.

During the past year, 1906-07, it will be seen by the record below, and in the summaries at the close of the active membership list, that there has been a large number of withdrawals, mostly of those who were enrolled at the Asbury Park and Ocean Grove meeting in 1905, because of local and temporary interest in the Association at that time. This loss is also due in part to the fact that of the entire 5,174 active members on the rolls July 1, 1907, only 322 were present at the Los Angeles convention. It is reasonable to expect that continued non-attendance at the annual conventions will result in loss of interest and consequently withdrawals of non-attending members.

ABANDONMENT OF THE SAN FRANCISCO CONVENTION

The necessary abandonment of the convention, appointed to be held in San Francisco in July, 1906, because of the partial destruction of that city by earthquake on April 18, 1906, and fire on following days, was a great disappointment to the officers and members of the Association. All local arrangements and program appointments had been practically completed and there was every promise of a very large and successful convention. It was impossible to meet in San Francisco, or in that vicinity. It was deemed impracticable at that late date to reconstruct programs, transportation, and other arrangements to insure a successful meeting at any other place.

THE ANNIVERSARY VOLUME

Later it was decided to issue in place of the annual volume of *Proceedings* for 1906, a *Fiftieth Anniversary Volume*, since the year closed the first fifty years of the Association's history. It is unnecessary in this place to review this volume, which is now in the hands of the members, having been completed and shipped to all members early in June, 1907. The delay in issuing this volume was due to the great labor in compiling the historical and statistical matter and in preparing the General Index of all publications during the fifty years. It was at first intended to include the General Index in the *Anniversary Volume*, but it was found impossible to bring all the matter within the limits of a single volume. It was therefore decided to issue the Index in a separate cloth-bound volume. Both volumes were sent to all active members.

THE FIFTIETH ANNIVERSARY CONVENTION

It had been the general desire of the active members to hold the Fiftieth Anniversary Convention in Philadelphia, Pa., in July, 1907, in which city the Association was organized on August 26, 1857.

When the Executive Committee applied to the Trunk Line Passenger Association in October, 1906, for the usual convention rates and ticket conditions, they were met by objections, obstructions, and delays until January, 1907, when a satisfactory rate was granted, but with a condition limiting the return on convention tickets to three days following the convention. Since it was manifestly impossible to bring the teachers of the United States together in convention at Philadelphia, or any other place, under such a limitation of time for return, the Executive Committee, while accepting the rate, declined to accept the limitation on the tickets for return. Every possible effort was made, without success, to secure from the lines interested in the Philadelphia meeting the extension on return tickets to September 1. No extension beyond the three days following the convention would be granted, and no reasons were given for refusing a concession which had been granted by all railway lines for all conventions of the N. E. A. for twenty years. Further negotiations appearing useless, the Executive Committee late in January withdrew their application for rates for a meeting in Philadelphia and accepted the invitation of Los Angeles to hold the Fiftieth Anniversary Convention in that city. The fifty or more lines of the Trans-Continental Passenger Association and the Western Passenger Association, including all lines west of Chicago and the Mississippi River, joined in granting the same rates and ticket conditions as had prevailed for many years, with stop-over privileges at all points on both going and returning trips and extension of time for return to September 15. These rates were adopted by all lines of the New England Passenger Association, the South Eastern Passenger Association, and the Canadian Passenger Association, but concurrence was refused by the Trunk Line Association, and the Central Passenger Association, largely made up of the Trunk Line connections.

About this time the Interstate Commerce Commission, presumably on the complaint of some railway company, issued, after a hearing, an administrative order to the effect that the plan which had prevailed for twenty years, by which the railway lines had collected the membership fee in the purchase price of the ticket, was illegal, and could not be allowed for the Los Angeles meeting as proposed by the trans-continental lines. The Commission however, ruled that it would be legal and satisfactory to limit the validation of tickets for return to bona fide members of the Association. This plan proposed by the Commission, by which the Association should collect its membership fees at the place of meeting was quite as satisfactory as the former plan by which the railroads had collected the fees. The order was promptly accepted by the Association and the trans-continental lines and a tender of rates, revised to accord with the ruling of the Commission, offered to all connecting railway lines and passenger associations. General concurrence was prevented by lines hostile to the Los Angeles meeting, on one pretext after another, until the Interstate Commerce Commission issued a supplementary order affirming beyond further question the rates and ticket conditions as tendered by the trans-continental lines. This order, however, was promulgated but one day before the Los Angeles convention tickets were to be placed on sale. While a number of lines of the Central Passenger Association and two lines of the Trunk Line Association accepted these rates and joined in the sale of tickets from New York city and intermediate points, the majority of the lines of these two associations did not concur, altho they did not claim that there was any longer legal objection to the rate.

These circumstances had a very unfavorable effect on the attendance at Los Angeles, since the rates did not apply from a large part of the territory from which we usually have the largest membership. Notwithstanding, the Los Angeles Convention was successful in every way, and in point of membership was the third largest in the history of the Association; Boston (1903) being first, and Asbury Park and Ocean Grove (1905), second. The total registration at Los Angeles amounted to 12,818, exclusive of approximately 4,500 active members not present at Los Angeles, to be included later in the total enrollment for the year. The corresponding enrollment at the Los Angeles Convention in 1899 was

11,982, increased later by 1,674 active members not present at Los Angeles, making a total of 13,656 for that year.

The following table shows enrollment by sections:

North Atlantic States	716
South Atlantic States	46
South Central States	839
North Central States	3,015
Western States	8,139
Foreign	63
Total	12,818

It is worthy of note that the state of California, for which 5,000 members were guaranteed by the Los Angeles Local Committee, had an enrollment of 6,306; Arizona, which has but 554 teachers, according to the latest report of the United States Commissioner of Education, furnished 583 members. Texas sent 458 members, and Utah 380—the highest number from these states at any convention.

The states having two hundred or more members enrolled at the Los Angeles meeting were: California, 6,306; Illinois, 761; Arizona, 583; Missouri, 467; Texas, 458; Utah, 380; Iowa, 294; Kansas, 293; New York, 279; Colorado, 258; Ohio, 245; Pennsylvania, 239; Nebraska, 216.

The Board of Directors at its meeting July 9, 1903, appropriated \$500, or so much thereof as might be necessary, for the use of the committee (see Minutes of the Board of Directors, Boston volume of *Proceedings*, pp. 36, 37).

At the meeting of the Council at the St. Louis meeting, L. D. Harvey, chairman, made an oral report of progress and was asked to make a complete report to the Council at its annual meeting in 1904. The committee had expended but \$187.95 of its appropriation of \$500, leaving an unexpended balance of \$312.05 which was reappropriated, and an additional appropriation of \$500 was made, making a total of \$812.05 available for the expenses of the committee for the year 1904-5 and for the preparation of its report (see Minutes of the Board of Directors, St. Louis volume of *Proceedings*, p. 39).

This committee thru its chairman, L. D. Harvey, presented to the National Council of Education a printed report of 97 pages. This report was accepted as a report of progress, at the meeting of the National Council in Asbury Park and Ocean Grove, N. J., July, 1905, and the committee was continued for the purpose of pursuing investigations still further in accordance with the plans outlined by the chairman, L. D. Harvey, and set forth in a communication to the Board of Directors (see p. 54 of *Yearbook* for 1905). An appropriation of \$300 for the expenses of this committee for the current year was recommended by the Committee on Investigations and Appropriations of the Council and authorized by the Board of Directors at its meeting July 6, 1905.

During the two years, 1905-6, 1906-7, the committee continued its investigations, expending \$290.99 of the appropriation of \$300. The balance of the appropriation was, under the rules, covered into the treasury June 30, 1907.

At the Los Angeles Convention, July, 1907, the chairman, L. D. Harvey, on behalf of the committee, presented to the National Council a report, supplementary to the report presented at the Asbury Park meeting, and asked that the committee be discharged and that a new committee of three be appointed to continue the work in co-operation with the Department of Agriculture, at Washington, D. C., and to make reports of the results of their investigations to the National Council from time to time; also that a new appropriation be granted to pay the necessary expenses of the committee.

Several members of the committee who found it impossible to continue membership were released and the committee was reorganized, as follows:

LORENZO D. HARVEY, superintendent of public schools and Stout Training Schools, Menomonie, Wis., *chairman*.

ELMER ELLSWORTH BROWN, United States Commissioner of Education, Washington, D. C.

A report was made to the same department at its meeting at Atlanta, Ga., in 1904 (see minutes of Department of Superintendence, St. Louis volume of *Proceedings*, p. 175).

The Board of Directors, at its meeting June 30, 1904, granted an appropriation of \$200 as a contribution toward the expenses of this committee in conference with committees of the Modern Language Association and of the American Philological Association in regard to a universal system of key notation for indicating pronunciation and to recommend a Phonetic Alphabet (see Minutes of the Board of Directors, St. Louis volume of *Proceedings*, p. 39).

purposes of the corporation; and, *provided further*, that the corporation shall annually file, with the Commissioner of Education of the United States, a report in writing, stating in detail the property, real and personal, held by the corporation, and the expenditure or other use or disposition of the same, or the income thereof, during the preceding year.

SEC. 5. That the membership of the said corporation shall consist of three classes of members—viz., active, associate, and corresponding—whose qualifications, terms of membership, rights, and obligations shall be prescribed by the By-Laws of the corporation.

SEC. 6. That the officers of the said corporation shall be a President, twelve Vice-Presidents, a Secretary, a Treasurer, a Board of Directors, an Executive Committee, and a Board of Trustees.

The Board of Directors shall consist of a President, the First Vice-President, the Secretary, the Treasurer, the chairman of the Board of Trustees, and one additional member from each state, territory, or district, to be elected by the active members for the term of one year, or until their successors are chosen, and of all life directors of the National Educational Association. The United States Commissioner of Education, and all former Presidents of the said Association now living, and all future Presidents of the Association hereby incorporated, at the close of their respective terms of office, shall be members of the Board of Directors for life. The Board of Directors shall have power to fill all vacancies in their own body; shall have in charge the general interests of the corporation, excepting those herein intrusted to the Board of Trustees; and shall possess such other powers as shall be conferred upon them by the By-Laws of the corporation.

The Executive Committee shall consist of five members, as follows: the President of the Association, the First Vice-President, the Treasurer, the Chairman of the Board of Trustees, and a member of the Association, to be chosen annually by the Board of Directors, to serve one year. SEC. 7. That the invested fund now known as the "Permanent Fund of the National Educational Association," when transferred to the corporation hereby created, shall be held by such corporation as a Permanent Fund and shall be in charge of the Board of Trustees, who shall provide for the safe-keeping and investment of such fund, and of all other funds which the corporation may receive by donation, bequest, or devise. No part of the principal of such Permanent Fund or its accretions shall be expended, except by a two-thirds vote of the active members of the Association present at any annual meeting, upon the recommendation of the Board of Trustees, after such recommendation has been approved by vote of the Board of Directors, and after printed notice of the proposed expenditure has been mailed to all active members of the Association. The income of the Permanent Fund shall be used only to meet the cost of maintaining the organization of the Association and of publishing its annual volume of *Proceedings*, unless the terms of the donation, bequest, or devise shall otherwise specify, or the Board of Directors shall otherwise order. It shall also be the duty of the Board of Trustees to issue orders on the Treasurer for the payment of all bills approved by the Board of Directors, or by the President and Secretary of the Association acting under the authority of the Board of Directors. When practicable, the Board of Trustees shall invest, as part of the Permanent Fund, all surplus

funds exceeding five hundred dollars that shall remain in the hands of the Treasurer after paying the expenses of the Association for the previous year, and providing for the fixed expenses and for all appropriations made by the Board of Directors for the ensuing year.

The Board of Trustees shall elect the Secretary of the Association, who shall also be secretary of the Executive Committee, and shall fix the compensation and the term of his office for a period not to exceed four years.

SEC. 8. That the principal office of the said corporation shall be in the city of Washington, District of Columbia, provided that the meetings of the corporation, its officers, committees, and departments, may be held, and that its business may be transacted, and an office or offices may be maintained, elsewhere, within the United States, as may be determined, by the Board of Directors, or otherwise in accordance with the By-Laws.

SEC. 9. That the Charter, Constitution, and By-Laws of the National Educational Association shall continue in full force and effect until the charter granted by this act shall be accepted by such Association at the next annual meeting of the Association, and until new By-Laws shall be adopted; and that the present officers, directors, and trustees of said Association shall continue to hold office and perform their respective duties as such until the expiration of terms for which they were severally elected or appointed, and until their successors are elected. That at such annual meeting the active members of the National Educational Association, then present, may organize and proceed to accept the charter granted by this Act and adopt By-Laws, to elect officers to succeed those whose terms have expired or are about to expire, and generally to organize the "National Educational Association of the United States;" and that the Board of Trustees of the corporation hereby incorporated shall thereupon, if the charter granted by this act be accepted, receive, take over, and enter into possession, custody, and management of all property, real and personal, of the corporation heretofore known as the National Educational Association, incorporated as aforesaid, under the Revised Statutes of the District of Columbia and all its rights, contracts, claims, and property of every kind and nature whatsoever; and the several officers, directors, and trustees of such last-named Association, or any other person having charge of any of the securities, funds, books, or property thereof, real or personal, shall on demand deliver the same to the proper officers, directors, or trustees of the corporation hereby created. *Provided*, That a verified certificate executed by the presiding officer and secretary of such annual meeting, showing the acceptance of the charter granted by this act by the National Educational Association shall be legal evidence of the fact, when filed with the Recorder of Deeds of the District of Columbia; and, *provided further*, That in the event of the failure of the Association to accept the charter granted by this act at said annual meeting, then the charter of the National Educational Association and its corporate existence shall be, and are hereby extended until the thirty-first day of July, nineteen hundred and eight, and at any time before said date its charter may be extended in the manner and form provided by the general corporation law of the District of Columbia.

SEC. 10. That the rights of creditors of the said existing corporation, known as the National Educational Association, shall not in any manner be impaired by the passage of this act, or the transfer of the property heretofore mentioned, nor shall any liability or obligation, or the payment of any sum due or to become due, or any claim or demand, in any manner, or for any cause existing against the said existing corporation, be released or impaired; and the corporation hereby incorporated is declared to succeed to the obligations and liabilities, and to be held liable to pay and discharge all of the debts, liabilities, and contracts, of the said corporation so existing, to the same effect as if such new corporation had itself incurred the obligation or liability to pay such debt or damages, and no action or proceeding before any court or tribunal shall be deemed to have abated or been discontinued by reason of this act.

SEC. 11. That Congress may from time to time alter, repeal, or modify this act of

incorporation, but no contract or individual right made or acquired shall thereby be divested or impaired.

Approved June 30, 1906.

Accepted and adopted as the Constitution of the National Education Association of the United States by the active members of the National Educational Association in annual session at Los Angeles, Cal., July 10, 1907.

SEC. 5. That the membership of the said corporation shall consist of three classes of members—viz., active, associate, and corresponding—whose qualifications, terms of membership, rights, and obligations shall be prescribed by the By-Laws of the corporation.

SEC. 6. That the officers of the said corporation shall be a President, twelve Vice-Presidents, a Secretary, a Treasurer, a Board of Directors, an Executive Committee, and a Board of Trustees.

The Board of Directors shall consist of a President, the First Vice-President, the Secretary, the Treasurer, the chairman of the Board of Trustees, and one additional member from each state, territory, or district, to be elected by the active members for the term of one year, or until their successors are chosen, and of all life directors of the National Educational Association. The Board of Directors shall have power to fill all vacancies in their own body; shall have in charge the general interests of the corporation, excepting those herein intrusted to the Board of Trustees; and shall possess such other powers as shall be conferred upon them by the By-Laws of the corporation.

The Executive Committee shall consist of five members, as follows: the President of the Association, the First Vice-President, the Treasurer, the Chairman of the Board of Trustees, and a member of the Association, to be chosen annually by the Board of Directors, to serve one year. The said committee shall have authority to represent, and to act for, the Board of Directors in the intervals between the meetings of that body, to the extent of carrying out the legislation adopted by the Board of Directors under general directions as may be given by said board.

The Board of Trustees shall consist of four members, elected by the Board of Directors for the term of four years, and the President of the Association, who shall be a member *ex officio*, during his term of office. At the first meeting of the Board of Directors, held during the annual meeting of the Association at which they were elected, they shall elect one trustee for the term of four years. All vacancies occurring in said Board of Trustees, whether by resignation or otherwise, shall be filled by the Board of Directors for the unexpired term; and the absence of a trustee from two successive annual meetings of the board shall forfeit his membership.

That the invested fund now known as the "Permanent Fund of the National Educational Association," when transferred to the corporation hereby created, shall be held by such corporation as a Permanent Fund and shall be in charge of the Board of Trustees, who shall provide for the safe-keeping and investment of such fund, and of all other funds which the corporation may receive by donation, bequest, or devise. No part of the principal of such Permanent Fund or its accretions shall be expended, except by a two-thirds vote of the active members of the Association present at any annual meeting, upon the recommendation of the Board of Trustees, after such recommendation has been approved by vote of the Board of Directors, and after printed notice of the proposed expenditure has been mailed to all active members of the Association. It shall also be the duty of the Board of Trustees to issue orders on the Treasurer for the payment of all bills approved by the Board of Directors, or by the President and Secretary of the Association acting under the authority of the Board of Directors. When practicable, the Board of Trustees shall invest, as part of the Permanent Fund, all surplus

The Board of Trustees shall elect the Secretary of the Association, who shall also be secretary of the Executive Committee, and shall fix the compensation and the term of his office for a period not to exceed four years.

SEC. 8. That the principal office of the said corporation shall be in the city of Washington, District of Columbia, provided that the meetings of the corporation, its officers, committees, and departments, may be held, and that its business may be transacted, and an office or offices may be maintained, elsewhere, within the United States, as may be determined, by the Board of Directors, or otherwise in accordance with the By-Laws.

SEC. 9. That the Charter, Constitution, and By-Laws of the National Educational Association shall continue in full force and effect until the charter granted by this act shall be accepted by such Association at the next annual meeting of the Association, and until new By-Laws shall be adopted; and that the present officers, directors, and trustees of said Association shall continue to hold office and perform their respective duties as such until the expiration of terms for which they were severally elected or appointed, and until their successors are elected. That at such annual meeting the active members of the National Educational Association, then present, may organize and proceed to accept the charter granted by this Act and adopt By-Laws, to elect officers to succeed those whose terms have expired or are about to expire, and generally to organize the "National Educational Association of the United States;" and that the Board of Trustees of the corporation hereby incorporated shall thereupon, if the charter granted by this act be accepted, receive, take over, and enter into possession, custody, and management of all property, real and personal, of the corporation heretofore known as the National Educational Association, incorporated as aforesaid, under the Revised Statutes of the District of Columbia and all its rights, contracts, claims, and property of every kind and nature whatsoever; and the several officers, directors, and trustees of such last-named Association, or any other person having charge of any of the securities, funds, books, or property thereof, real or personal, shall on demand deliver the same to the proper officers, directors, or trustees of the corporation hereby created. *Provided*, That a verified certificate executed by the presiding officer and secretary of such annual meeting, showing the acceptance of the charter granted by this act by the National Educational Association shall be legal evidence of the fact, when filed with the Recorder of Deeds of the District of Columbia; and, *provided further*, That in the event of the failure of the Association to accept the charter granted by this act at said annual meeting, then the charter of the National Educational Association and its corporate existence shall be, and are hereby extended until the thirty-first day of July, nineteen hundred and eight, and at any time before said date its charter may be extended in the manner and form provided by the general corporation law of the District of Columbia.

SEC. 10. That the rights of creditors of the said existing corporation, known as the National Educational Association, shall not in any manner be impaired by the passage of this act, or the transfer of the property heretofore mentioned, nor shall any liability or obligation, or the payment of any sum due or to become due, or any claim or demand, in any manner, or for any cause existing against the said existing corporation, be released or impaired; and the corporation hereby incorporated is declared to succeed to the obligations and liabilities, and to be held liable to pay and discharge all of the debts, liabilities, and contracts, of the said corporation so existing, to the same effect as if such new corporation had itself incurred the obligation or liability to pay such debt or damages, and no action or proceeding before any court or tribunal shall be deemed to have abated or been discontinued by reason of this act.

SEC. 11. That Congress may from time to time alter, repeal, or modify this act of

incorporation, but no contract or individual right made or acquired shall thereby be divested or impaired.

TWENTY-SECOND ANNUAL REPORT OF THE BOARD OF TRUSTEES OF THE NATIONAL EDUCA- TION ASSOCIATION

FOR THE YEAR JULY 1, 1907, TO JULY 1, 1908

CLEVELAND, OHIO, July 1, 1908

To the Board of Directors of the National Education Association:

The Board of Trustees of the National Education Association has the honor to submit the following report on the Permanent Fund of the Association for the year ending June 30, 1908.

The amounts collected as income of the Permanent Fund and the disposition made of the income are shown in the following Income Account.

The changes in the investments held for the Permanent Fund, including payments received on account of principal and new investments, are shown in the following Principal Account.

The present state of the investments held for the Permanent Fund is shown in the following Statement of Securities held for the Permanent Fund.

The Permanent Fund amounts at this date to \$170,028.00, having been increased during the year under review by \$9,928.00, as follows:

Amount of the Permanent Fund, July 1, 1907.....		\$160,100.00
Transferred from the Treasurer, in accordance with Sec. 7 of the Act of Incorporation.....	\$10,000.00	
Transferred from the Treasurer to cover adjustments of premiums and discounts on former investments (see Statement B).....	<u>1,112.50</u>	\$11,112.50
Less		
Net reduction in inventory value of Securities, result- ing from scheduling them at cost instead of at face value.....	\$1,112.50	
Expenses incident to investments, charged to principal (see Principal Account).....	<u>72.00</u>	\$ 1,184.50
		<u>\$9,928.00</u>
Amount of the Permanent Fund, June 30, 1908...		\$170,028.00

The item of \$1,112.50 is the result of action taken by the Trustees providing that hereafter all securities held for the Permanent Fund shall be entered in the statements of account not at the par value of such securities, but at the price actually paid for the same. Heretofore it has been customary to carry the securities held for the Permanent Fund at their par value and to treat any premium or discount arising in connection with the purchase of securities as either a charge upon, or an addition to, income. The Trustees believe that the policy now adopted is more business-like and sets out the state of the Fund with greater accuracy.

In adjusting the statements of account in this regard, it became necessary to recover from the Treasurer, as shown in Statement B, the sum of \$1,112.50, being the excess of discounts over premiums heretofore transferred to him by the Trustees.

Statement A shows the net income of the property at No. 4762 Lake Avenue, Chicago, Illinois, to which title has been taken by the Trustees under proceedings for foreclosure of mortgage. This property is the item reported in the last annual report as the Hord

Mortgage Certificate, valued at \$5,500. The Trustees do not intend to hold the property as an investment, but to offer it for sale whenever satisfactory terms can be had.

The operations of the year and the present state of the Permanent Fund are set out in detail in the accounts and statements which follow.

VICE-PRESIDENT SCHAEFFER: The last three years have indeed been critical years for the National Education Association. During those three years it has passed thru fire and earthquake, it has faced the perplexities of Congress and of disturbed railroad conditions. I rejoice in the fact that Congress has given the Association a new charter guaranteeing the security of its invested funds and the continuation of its usefulness. The National Council of Education has been rejuvenated and enlarged. The various departments have grown in popularity and effectiveness, and the general sessions of the Association have taxed the capacity of the largest auditoriums. The city of Cleveland has surpassed itself and all of its former efforts in the hospitality and the provisions for meetings extended to this Association.

I cannot refrain from expressing my profound gratitude to persons in all parts of the United States for helping us in the last three years to bring the Association thru its critical period into the new era which has just dawned.

I have very great pleasure in passing the gavel over to the President-elect, Lorenzo D. Harvey of Menomonie, Wis., and I bespeak for him the same cordial, loyal support that has been accorded to all of his predecessors by the members of the National Education Association.

PRESIDENT HARVEY: Members of the Association, I wish to express to you as well as I am able, my sense of the honor extended to me as a humble member of this Association, chosen as your servant to render such service as I may during the ensuing year; and I assure you that with the sense of appreciation of the honor is an equal sense of the appreciation of the responsibilities that go with it. This sense of appreciation and of responsibility grows out of a somewhat intimate knowledge of the work—the magnificent work—done by this Association, by the able men who have preceded me in this position, emphasized by the high standards that have been set at this great meeting of the Association. I regard this Association as the most potent influence in the shaping, molding, and directing of the

educational forces of this country. In its ranks are the men and women who are the leaders of the educational world. In our meetings—in the general sessions, in the departments, in the reports of committees—we have considered, discussed, and brought out conclusions from which come clearer ideas, more definite purposes, higher standards, better organizations for the educational forces of this country. In such an organization as this, standing for these things, there is no place for private or personal ambition or petty, private interests. It is the individuals who give generous service, and that in the very highest degree, who have made this Association what it is. With such a view of this Association you may understand my sense of responsibility. I beg to say to you that whatever service I may be able to render shall be cheerfully given. And I ask—as I know I shall receive—the hearty co-operation of every member of this Association, during the short time I shall serve you, to further the ends for which it exists.

After music by the Fisk Jubilee Singers, Acting President Schaeffer declared the forty-sixth annual convention of the National Education Association adjourned.

IRWIN SHEPARD, *Secretary*

MINUTES OF ANNUAL BUSINESS MEETING OF ACTIVE MEMBERS

CLEVELAND, OHIO—12 M., WEDNESDAY, JULY 1, 1908

The meeting was called to order in the Old Stone Church by Vice-President Nathan C. Schaeffer.

The minutes of the last meeting of active members were, upon motion, approved, without reading, as printed in the volume of *Proceedings* for 1907.

The report of the Board of Trustees was presented, and on motion, accepted and adopted.

The Treasurer, Arthur H. Chamberlain, gave a synopsis of his report. Upon motion, the Treasurer's report was accepted and adopted.

CHAIRMAN SCHAEFFER: Consideration of the amendments to the By-Laws, proposed at the meeting of active members, July 10, 1907, is in order.

The first amendment is that Article 5, section 2, of the By-Laws be amended to read:

SEC. 2. The Council shall consist of one hundred and twenty members, selected from the membership of the Association. Any member of the Association identified with educational work is eligible to membership in the Council.

JOSEPH SWAIN, Swarthmore, Pa.: I am in favor of increasing the membership of the Council, but I doubt the wisdom of doubling it. In a body of this character the best work is done, as a rule, with small numbers. But it is true that this Association is much larger than when the present number was determined, and that a larger membership would be more representative. I suggest that the number be either seventy-five or ninety. If we find that the larger number increases the efficiency of the Council in the work of education, a further increase can then be made. If, however, we should find a membership of one hundred and twenty not as efficient as a smaller number, it would not be so easy to decrease, as it is to increase, the number.

CARROLL G. PEARSE, Milwaukee, Wis.: At the time of the formation of the National Council, the National Educational Association had only a few hundred members. As the Association has grown, the Council has remained at the original number. There has been a feeling for a number of years that the Council should include a larger number of the members of the Association. With this new blood and new strength added, its work can be done more effectively. This work is done thru committees whether the membership is sixty or one hundred and twenty. With the active membership of this Association running into the thousands, I believe that to limit the Council to less than one hundred and twenty is to limit it unnecessarily and unwisely. For these reasons I introduced last year this amendment to double the membership of the Council, and I most earnestly hope it may prevail. I move that the amendment be adopted. Motion seconded.

JAMES M. GREENWOOD, Kansas City, Mo.: I believe that this movement to double the present membership is a wise one. With the larger number divided into committees it will be possible to secure a greater efficiency since more questions can be considered.

GRACE C. STRACHAN, Brooklyn, N. Y.: I wish to ask how the present Council is selected, and how the other sixty will be selected.

CHAIRMAN SCHAEFFER: At present five are selected by the Council and five by the Board of Directors each year. If the number is to be increased, the method of the selection of additional members will have to be determined.

The motion to amend Article 5, section 2, was then carried.

CHAIRMAN SCHAEFFER: The second amendment is that section 3 of the same article be amended to read:

SEC. 3. The Board of Directors shall annually elect ten members, and the Council shall elect ten members, each member to serve for six years, or until his successor is elected.

Moved to adopt the amendment; seconded.

CHAIRMAN SCHAEFFER: I should like to call attention to the fact that this amendment if adopted will increase the number gradually and that we would not at once have the full one hundred and twenty. Is this the purpose of the motion to amend?

After discussion by several members Mr. Pearse moved to amend the amendment by adding the words:

At the meeting of 1908 enough additional members shall be elected in the same manner to make the total number of members one hundred and twenty. The terms of the members so elected shall expire as follows: one-sixth in one year, one-sixth in two years, one-sixth in three years, one-sixth in four years, one-sixth in five years, one-sixth in six years.

Seconded.

JOHN W. COOK, DeKalb, Ill.: I do not believe the motion to amend the proposed amendment is in order. According to the By-Laws it is necessary to give notice of a new amendment one year in advance. An amendment thus previously proposed cannot be changed without making it substantially a new amendment.

MR. GREENWOOD: It is not necessary to give notice of a change in an amendment. An amendment proposed in a previous year may be changed in any way desired by the majority of active members not contrary to the original intention and may then be adopted.

CHAIRMAN SCHAEFFER: The chair rules that Mr. Greenwood's position is correct. Any other interpretation would enable any member by offering an amendment to prevent action for a year on an amendment duly proposed.

The motion was then carried.

The amendment to Article 5, section 3, as amended, was then on motion adopted

CHAIRMAN SCHAEFFER: The next item on the docket is a report of progress by the Committee on the Establishment of a National University in Washington, D. C., by President Charles R. Van Hise, a member of the Committee.

PRESIDENT VAN HISE: Since President Wheeler, the chairman, and President Angell of the Committee are not present, it devolves upon me to make this report. The National Association of State Universities appointed a similar committee for a like purpose, which committee consists of President James, of Illinois State University, President Thompson, of the Ohio State University, and President Baker, of Colorado State University. It was obvious that it would be an advantage for these two committees to co-operate. They therefore met together in Washington and agreed upon a bill, of which I shall read a part. (Reads sections 1 to 7 inclusive of Bill H. R. 19,465.)

Sections 8, 9, 10, 11, 12, 13, and 14 are concerned with the method of government under the Advisory Council and the trustees. I need not read those sections for I can state the points in a moment. The trustees are the active corporation and they will control the university. The Advisory Council has the vetoing power to the extent of suspending the action of the trustees unless the trustees again pass the same ordinance by a three-fourths vote. By this method the whole authority is finally vested in the trustees, but these trustees may be checked for a time by the Advisory Council, and the Council may bring measures before them for their instruction. It is believed that full authority should remain in one body but that great advantage could be obtained from having an Advisory Council which would represent every state in the Union. The two features in this bill to which I need to call your especial attention are that no student shall be admitted until he shall have received the degree of Master of Arts or Science, or an equivalent training. It is the purpose to create strictly a graduate university. It is believed that there is at the present time no necessity for the national government to undertake the maintenance of an undergraduate university. It is well understood by your committee that there are a num-

ber of universities in this country that can maintain graduate schools. It is believed that by far the larger number of colleges and universities should not undertake to maintain graduate schools. Therefore it is proposed to make this university an advanced institution which will take the students from the colleges and universities of the country, wherever they may be, to do the advanced work. No degree, however, is to be granted. It is the purpose to encourage the local universities and the colleges and universities by giving them the opportunity to confer the higher degrees, such as Doctor of Philosophy, upon their own students. For instance, if there is a college in Illinois or Ohio, let them maintain work to the point of giving training to the Master of Arts degree; let that student go to the National University and get the training which will entitle him to the degree of Master of Science, the National University will certify back to the original institution from which the student came, and the institution will grant the degrees. There is a concurrence on the part of a very large number of institutions in this plan. Some few institutions that maintain strong graduate schools are doubtful about it.

CHAIRMAN SCHAEFFER: What action do you recommend us to take today?

PRESIDENT VAN HISE: It seems to me that the number of students for advanced work will become greater, if the great opportunities at Washington may be taken advantage of for this work. We now have students by the hundreds doing the work for Doctors of Philosophy, but we ought to have students by the thousands. If this bill meets with the approval of the active members present it should be approved in its principles, and the committee continued. I make that suggestion; but as a member of the committee I do not feel like making a motion.

E. O. VAILE, of Illinois: I move we approve the principles of that bill and continue the committee to work in its behalf. Seconded and carried without discussion.

The report of the Committee on Nominations was then presented by its chairman, Ben Blewett, of St. Louis, Mo.

MR. BLEWETT: The nominating committee met at the time appointed, 44 members being present. The following mode of procedure was agreed upon: that, credentials having been established, the roll of states should be called for nominations to the presidency and other offices; that a majority of those voting should decide the nomination; that, should more than two names be presented for any office, after a second ballot the name having the lowest number of votes should be withdrawn. Three states presented names for the presidency. On the fourth ballot, one name received a majority of the votes. Immediately, upon motion of the other states presenting candidates, the nomination was made unanimous. In all other cases the action of the committee was by unanimous vote.

I have the honor to present the following nominations for your consideration:

DECLARATION OF PRINCIPLES

The National Education Association, now holding its Forty-sixth Annual Convention in Cleveland, and representing teachers and friends of education in every state in this Union, makes the following declaration of principles and aims:

1. Fully realizing that trained and skilled labor is a primary essential to the industrial and commercial welfare of the country, we cordially indorse the establishment by municipal boards of education of trade schools, industrial schools, and evening continuation schools; and further recommend that the instruction in these schools be practical and

efficient, and have the advice and the approval of the trade interested, to the end that graduates of these schools may at once become advanced apprentices or journeymen.

2. We recommend the subordination of highly diversified and overburdened courses of study in the grades to a thorough drill in essential subjects; and the sacrifice of quantity to an improvement in the quality of instruction. The complaints of business men that pupils from the schools are inaccurate in results and careless of details is a criticism that should be removed. The principles of sound and accurate training are as fixed as natural laws and should be insistently followed. Ill-considered experiments and indiscriminate methodizing should be abandoned, and attention devoted to the persevering and continuous drill necessary for accurate and efficient training; and we hold that no course of study in any public school should be so advanced or so rigid as to prevent instruction to any student, who may need it, in the essential and practical parts of the common English branches.

3. We assert that the individuality of the pupil should be carefully considered, to the end that he may be instructed in the light of his limitations and capacity; and we commend to all local authorities the necessity of greater care in the arrangement of courses of study, that they may be adapted to the pupils to be instructed, rather than that pupils should be adapted to fixed courses of study and an inflexible system of grading.

4. There is concededly a grave moral depression in our business and social atmosphere. The revelations of the financial and legislative world for the past two years denote a too general acquiescence in questionable practices and standards. We earnestly recommend to boards of education, principals, and teachers the continuous training of pupils in morals, and in business and professional ethics, to the end that the coming generation of men of affairs may have a well-developed abhorrence of unfair dealing and discrimination. The establishment of the honor system in schools, the ostracism of the dishonest or unfair pupil, the daily exemplification in the routine life of the school of the advantage of honest and truthful methods, are commended to the especial attention of teachers as a partial means to this end.

5. The Bureau of Education at Washington should be preserved in its integrity and the dignity of its position maintained and increased. It should receive at the hands of Congress such recognition and such appropriations as will enable it not only to employ all expert assistants necessary, but also to publish in convenient and usable form the results of investigations; thus making that department of our government such a source of information and advice as will be most helpful to the people in conducting their campaigns of education. We are of the opinion that the importance of the subject under its control, and the dignity of this country require that this Bureau be maintained as an independent department of the government.

6. The National Education Association notes with approval that the qualifications demanded of teachers in the public schools are increasing annually, and particularly that in many localities special preparation is demanded of teachers. The idea that anyone with a fair education can teach school is gradually giving way to the correct notion that teachers must make special preparation for the vocation of teaching. The higher standards demanded of teachers must lead logically to higher salaries for teachers, and constant efforts should be made by all persons interested in education to secure for teachers adequate compensation for their work.

7. It is the duty of the state to provide for the education of every child within its borders, and to see that all children obtain the rudiments of an education. The constitutional provision that all tax-payers must contribute to the support of the public schools logically carries with it the implied provision that no persons should be permitted to defeat the purposes of the public-school law by forcing their children, at an early age, to become bread-winners. To this end the child-labor and truancy laws should be so harmonized that the education of the child, not its labor, shall be made the chief concern.

8. The National Education Association indorses the increasing use of school buildings for free vacation schools and for free evening schools and lecture courses for adults, and for children who have been obliged to leave the day school prematurely. We also approve of the use of school grounds for playgrounds and the use of school gymnasiums and bathrooms for the benefit of the children in the crowded districts during summer.

9. Local taxation, supplemented by state taxation, presents the best means for the support of the public schools, and for securing that deep interest in them which is necessary to their greatest efficiency. State aid should be granted only as supplementary to local taxation, and not as a substitute for it.

10. The National Education Association observes with great satisfaction the tendency of cities and towns to replace large school committees or boards which have exercised executive functions thru subcommittees, by small boards which determine general policies, but intrust all executive functions to salaried experts.

11. We cannot too often repeat that close, intelligent, judicious supervision is necessary for all grades of schools.

12. The rapid establishment of rural high schools and the consolidation of rural district schools are most gratifying evidences of the progress of education. We believe that this movement should be encouraged until the children of rural communities enjoy the benefits of public education to an extent approximating as nearly as practicable the education furnished in urban communities.

13. The National Education Association wishes to record its approval of the increasing appreciation among educators of the fact that the building of character is the real aim of the schools and the ultimate reason for the expenditure of millions for their maintenance. There are in the minds of the children and youth of today a tendency toward a disregard for constituted authority, a lack of respect for age and superior wisdom, a weak appreciation of the demands of duty, a disposition to follow pleasure and interest rather than obligation and order. This condition demands the earliest thought and action of our leaders of opinion and places important obligations upon school boards, superintendents, and teachers.

14. It is apparent that familiarity with the English Bible as a masterpiece of literature is rapidly decreasing among the pupils in our schools. This is the direct result of a conception which regards the Bible as a theological book merely, and thereby leads to its exclusion from the schools of some states as a subject of reading and study. We hope for such a change of public sentiment in this regard as will permit and encourage the reading and study of the English Bible, as a literary work of the highest and purest type, side by side with the poetry and prose which it has inspired and in large part formed.

15. The National Education Association wishes to congratulate the secondary schools and colleges of the country that are making an effort to remove the taint of professionalism, and other abuses, that have crept into students' sports. This taint can be removed only by leading students, alumni, and school faculties to recognize that inter-school games should be played for sportsmanship and not merely for victory.

16. It is important that school buildings and school grounds should be planned and decorated so as to serve as effective agencies for educating, not only the children, but the people as a whole, in matters of taste. The school is becoming more and more a community center, and its larger opportunities impose new obligations. School buildings should be attractive as well as healthful, and the adjoining grounds should be laid out and planned with appropriateness and beauty.

17. The highest ethical standards of conduct and of speech should be insisted on among teachers. It is not becoming that commercialism or self-seeking should shape their actions, or that intemperance should mark their utterances. A code of professional conduct clearly understood and rigorously enforced by public opinion is being slowly developed, and must one day control all teachers worthy of the name.

18. In teaching, as in every other kind of work, the best service is secured by finding the individual best fitted to the particular place as indicated by training, experience, and meritorious service; the National Education Association therefore heartily approves a merit system of promoting teachers and filling vacancies. We assert, furthermore, that the grounds upon which a teacher may apply for a position are preparatory training, experience, and meritorious service—in a word, professional fitness, alone; and that the use of other personal and political arguments to secure appointment is deplorable in the teacher and a serious menace to a high professional standard.

The foregoing principles and aims have been fully considered by the committee and unanimously recommended to the Active Members of the National Education Association for adoption.

Respectfully submitted,

HOWARD J. ROGERS, of New York, *Chairman*
ORVILLE T. BRIGHT, of Illinois
CHARLES E. CHADSEY, of Colorado
EDGAR H. MARK, of Kentucky
GEORGE M. PHILLIPS, of Pennsylvania
DAVID B. JOHNSON, of South Carolina

Committee on Resolutions

The motion to adopt the declaration of principles was seconded and carried.

The following resolutions were also presented by the Committee on Resolutions for the consideration of the Association:

1. *Resolved:* That the thanks of the National Education Association are due and are hereby most cordially tendered to the residents of Cleveland for their courteous reception and generous hospitality; and to the teachers of Cleveland and the state of Ohio for their splendid support and entertainment.

2. *Resolved:* That the thanks of the National Education Association be tendered the following gentlemen for their active and efficient interest in the welfare and entertainment of the Association: F. F. Prentiss, chairman Executive Committee, Cleveland Local Organization; Samuel Mather, president Citizens Committee; E. H. Baker, chairman Committee on Publicity; S. M. Bond, chairman Committee on Halls and Headquarters; Rev. Dan F. Bradley, chairman Committee on Reception; N. D. Chapin, chairman Committee on Transportation; William H. Elson, chairman Committee on Membership; F. H. Haserot, chairman Advisory Committee; William H. Hunt, chairman Entertainment Committee; George W. Kinny, chairman Committee on Decorations and Badges; Thomas P. Robbins, chairman Committee on Accommodations; Col. J. J. Sullivan, chairman Committee on Finance; and also to William G. Rose, executive secretary of the Local Executive Committee, and his able corps of assistants.

3. *Resolved:* That the thanks of the Association be tendered to First Vice-President and ex-President Nathan C. Schaeffer, of Pennsylvania, Superintendent William H. Elson, of Cleveland, and James H. Baker of Colorado, for presiding over the meetings of this Association in the absence of our esteemed President, Edwin G. Cooley, to whom the greetings and good wishes of our members have already been cabled.

4. *Resolved:* That the public high schools should not be chiefly fitting schools for higher institutions, but should be adapted to the general needs, both intellectual and industrial, of their students and communities, and we suggest that the higher institutions may wisely adapt their courses to this condition. We also suggest to school boards and superintendents the importance of securing for their high schools teachers who have not only abundant scholarship but also successful experience in teaching or efficient and practical training in pedagogy.

Upon motion the resolutions were adopted.

The following telegram was read:

President Cooley, Cleveland, O.:

Cordial greetings Chilean National Education Association.

SANTIAGO, CHILE, S. A.

DR. FERNANDEZ

The chairman was on motion directed to make suitable reply.

E. B. COX, Xenia, Ohio: The published minutes of last year's meeting show that in the report of the Committee on Resolutions there was one resolution which was adopted by the Association by standing vote by a large majority—209 to 23 I believe—the legality of the vital part of which was questioned. It was the resolution approving the work of the Simplified Spelling Board, and directing that the simplified spellings contained in its first recommendation be used in the publications of this Association. The Secretary did not feel bound by the direction expressed in this resolution. The action was taken at one of the general sessions. The question was raised whether it was in accordance with the constitution of the National Education Association for the Association in a general session to pass such amendatory resolution. I do not rise to touch this question at all, but simply to submit in substance the mandatory part of last year's resolution to this regular and formal meeting of active members in order that the evident sentiment of a clear majority of this organization may be expressed with such legality and supreme authority that the Secretary will feel obliged to obey it. Therefore I submit this resolution:

Resolved: That the Secretary is hereby directed to use in the publications of this Association the simplified spellings recommended by the Simplified Spelling Board in its circular of March 21, 1906.

It was moved, seconded, and carried, that the resolution be laid on the table.

CHAIRMAN SCHAEFFER: The committee, appointed at the Los Angeles meeting, on the Juvenile Educational Conference has submitted a report with the request that it be printed, but not read. If there is no objection this will be done.

REPORT OF COMMITTEE ON JUVENILE EDUCATIONAL CONFERENCE

Your committee appointed at the Los Angeles meeting begs leave to submit the following report:

For the better harmonizing of the child-labor and the truancy laws of the several states and of the country, so that the education of the child rather than its labor should

be made the chief end of such statutes, an informal conference was held at Middle Bass Island, Lake Erie, August 17, 1907.

The resolution under which the conference was held had been adopted by the Ohio School Improvement Federation, the Ohio Teachers' Association, and the National Education Association, and representatives of these and of other organizations took part in the meeting. The members of the conference were C. J. Bell, a former governor of Vermont, now a member of the Executive Committee of the National Grange, E. B. Norris, of New York, chairman of the Executive Committee of the National Grange, George P. Hampton, of New York City, F. A. Derthick, master of the Ohio State Grange, Mrs. Mary E. Lee, Grange correspondent of agricultural papers, Mrs. Sarah E. Hyre, a member of the Board of Education of Cleveland, Ohio, George E. Pomeroy, president of the Ohio State Board of Commerce, C. D. Forestone of the Carriage Builders' National Association, Mrs. Mary C. Snyder, secretary of the National Tax Association, and Walter D. McKinney, commissioner of the Columbus Industrial Alliance of Columbus, Ohio.

E. G. Cooley, superintendent of the public schools of Chicago, and W. H. Elson, superintendent of the public schools of Cleveland, who had been appointed delegates to the conference by the National Education Association, were unable to attend because of their absence in California. James W. Van Cleave, president of the National Manufacturers' Association, also was unable to attend the conference but sent a letter saying that there is no doubt of the fact that "industrial education for the American boy is one of the greatest, if not the greatest problem, that confronts the republic at this time."

In explaining the purpose of the conference it was stated that unrelated action had been taken at different times by the National Grange, the National Education Association, and the National Manufacturers' Association favoring measures for the improvement of the common-school system of the country with the direct purpose of enabling all children, during their school age, to acquire the particular kind of education that will best fit them to follow their naturally selected vocations and secure engagements in profitable employments. To this end, as far as possible, efforts should be made to combine the employment of children, during out-of-school hours, vacation time, and the habit-forming period from 14 to 18 years of age, with the school system in a way to make employment as well as study a part of the educational system by placing all children, when employed as well as when in school, under the supervision of a school-district officer. After full and careful consideration, the conference adopted the following:

1. It is the sense of this conference that a permanent co-operative conference committee should be formed composed of three delegates each, representing the National Grange, the National Manufacturers' Association, the National Education Association, the National Tax Association, the Carriage Builders' National Association, for the purpose of supplying a medium through which said organizations can co-operate to secure practical results in line with their desires to make the education of children of a character that will best fit them for the vocations they are most likely to desire to follow, and for profitable employment.

2. That the common-school system should be employed to provide, as far as possible, for the teaching in all elementary schools of the mechanical, agricultural, and domestic arts and sciences, with the direct purpose of fitting children as fully as possible for profitable employment in the vocations they are most likely to follow.

3. That the taxation systems of the states should be revised with the purpose of furnishing ample support and facilities of every necessary kind for making effective the purposes in view, and especially with the view of so providing for schools in poor districts that they will be as well equipped and effective as the schools in districts having greater wealth.

4. That the persons participating in this conference submit these propositions to their various organizations, at the next annual meeting of the same, with the view of securing action that will enable such organizations to be represented officially in a permanent co-operative conference committee designed to secure necessary legislative action to carry its propositions into practical effect.

5. That such other organizations having similar ends in view, as may be approved by the Committee on Preliminary Organization, be invited to be represented in this permanent Co-operative Conference Committee.

The following resolution relating to a preliminary committee on organization was adopted:

Resolved. That a Preliminary Committee on Organization, composed of five members, be created with power to have full charge of the work to be undertaken until the permanent Co-operative Conference Committee is organized.

The following persons were elected members of the Preliminary Committee on Organization: ALLEN RIPLEY FOOTE, President of the National Tax Association, *Chairman*; E. B. NORRIS, chairman of the Executive Committee, National Grange; W. H. ELSON, super-

intendent of Public Schools, Cleveland, vice-president of the National Education Association; C. D. FIRESTONE, treasurer of the Ohio Board of Commerce and member of the Carriage Builders' National Association; JAMES W. VAN CLEAVE, president of the National Manufacturers' Association, or to be named by him.

Respectfully submitted,

W. H. ELSON

Representing the National Education Association

Suggestions were made expressing the desire of the members that, in the choice of additional members of the National Council, the disparity in the proportion between men and women members be reduced.

The meeting then adjourned.

MINUTES OF THE MEETING OF THE BOARD OF DIRECTORS FOR 1907-1908

CLEVELAND, OHIO, June 29, 1908

The annual meeting of the Board of Directors was called to order in the Cleveland Coal Club room, Hollenden Hotel, at 11:00 A. M. by Acting President Nathan C. Schaeffer. Thirty-one directors responded to roll-call.

The reading of the minutes of the last meeting, held July 12, 1907, was dispensed with and the minutes were approved as printed in the volume of *Proceedings* of the Los Angeles meeting.

The resignations of three directors were received and upon their nomination the following were appointed to fill the unexpired term:

Romanzo Adams, of Nevada, to succeed J. E. Stubbs, resigned.

L. L. Friend, of West Virginia, to succeed Thomas C. Miller, resigned.

Harry M. Schafer, of Washington, to succeed E. T. Mathes, resigned.

The following resolution presented by Nicholas Murray Butler was on motion approved and recommended for adoption by the Association at its first general session:

Resolved, that in the enforced absence of their President, Superintendent Edwin G. Cooley, the members of the National Education Association testify to their affectionate regard for him, send him cordial greetings across the sea, and confidently look forward to his complete recovery of health and strength.

The Annual Report of the Board of Trustees for the year July 1, 1907, to June 30, 1908, was presented by Nicholas Murray Butler, chairman of the Board of Trustees, and printed copies of the same were distributed to the directors.

Chairman Butler called attention to certain changes adopted by the Board in the form of the annual report providing for a distinct classification of all receipts and disbursements under "Income" and "Principal" accounts, the addition of a "Premium and Discount" account, and also a method of entry by which the par value and the book value of each security is shown.

The report showed that \$10,000 had been added to the permanent fund during the year from the proceeds of the Los Angeles meeting.

The report was on motion adopted and ordered printed in the annual volume of *Proceedings*.

The report of the Treasurer, A. H. Chamberlain, of Pasadena, Cal., for 1907-8 was presented and printed copies of the same were distributed. On motion this report was received and referred to the Board of Trustees for audit and approval.

The following communication was presented by J. M. Greenwood, chairman of the Committee of the National Council on Investigations and Appropriations.

To the Directors of the National Education Association:

The Committee on Investigations and Appropriations recommends the adoption of the following resolutions by the Board of Directors:

1. *Resolved*, that in view of the present unsettled condition of the finances of the National Education Association, due to the confusion which has arisen from a change of policy by the railroads of the country regarding convention rates, the policy of the National Education Association in granting appropriations for the investigation of special educational problems shall be and hereby is discontinued.

2. *Resolved*, that the President of the National Education Association be authorized and empowered to appoint a special committee to memorialize the Congress of the United States in favor of granting the request of the Commissioner of Education, approved by the Secretary of the Interior, for an annual appropriation to meet the cost of educational investigations under the direction of the Bureau of Education.

3. *Resolved*, that upon the favorable report of the Committee on Investigations and Appropriations the Board of Directors will consider and if approved will recommend to the Commissioner of Education projects for educational investigations brought forward by any department or committee of the National Education Association.

Respectfully submitted,

JAMES M. GREENWOOD, *Chairman*
NICHOLAS MURRAY BUTLER
FRANK A. FITZPATRICK
AUGUSTUS S. DOWNING
J. H. PHILLIPS
L. D. HARVEY

After brief discussion the above resolutions were on motion adopted by a unanimous vote.

Director Charles H. Keyes presented a brief report from the Committee on Manual Training Courses in Public Schools, for the expenses of which an appropriation of \$500 was made by the Board of Directors at its meeting in Los Angeles, July 12, 1907. For reasons which were stated the committee had not been organized until February, 1908, and had, as yet, only determined upon its plans for investigation of the subjects referred to it. Director Keyes stated that very little of the appropriation for expenses had been expended and requested that special action be taken extending the time by one year within which the appropriation might be available. On motion it was so ordered.

Secretary Irwin Shepard then made a brief statement regarding the difficulties which had arisen in securing the usual reduced rates and ticket conditions for the Cleveland convention. In view of the fact that the railroads had declined longer to continue the policy of limiting convention rates to bona fide members of the Association holding the convention, it was urged that the board of Directors and the officers of the Association, co-operating with the active members, should take steps to increase the active membership of the Association rather than to depend for revenue upon the fees of associate members attending the annual conventions. This subject was discussed at some length and a general agreement expressed favoring the policy proposed, altho no definite action was taken by the Board of Directors.

There being no further business the Board of Directors adjourned.

MINUTES OF THE MEETING OF THE NEW BOARD OF DIRECTORS FOR 1908-1909

CLEVELAND, OHIO, July 2, 1908

The meeting of the new Board of Directors of the National Education Association for the year 1908-9 was called to order by, President-elect L. D. Harvey at 4:30 P. M., in the room of the Cleveland Coal Club, Hollenden Hotel.

Thirty-seven directors responded to the call of the roll.

Directors Charles H. Keyes of Connecticut, J. M. Greenwood of Missouri, and I. C. McNeill of Tennessee were appointed a Committee on Nominations to Membership in the National Council.

The report of the Committee on Investigations and Appropriations, recommending the discontinuance of the policy of granting appropriations for committees of investigation which was unanimously adopted by the former Board of Directors on June 29, 1908, was read by Director Greenwood, with recommendation for its adoption by the present Board. On motion it was so ordered. For the text of the report see the minutes of the meeting of the Board of Directors for 1907-8, p. 42.

Mr. Greenwood read the following report of the Committee on Investigations and Appropriations concerning the establishment of National Education Association traveling scholarships.

REPORT OF COMMITTEE ON INVESTIGATIONS AND APPROPRIATIONS

To the Directors of the National Education Association:

The Committee on Investigations and Appropriations recommends the adoption of the following resolutions by the Board of Directors:

A. *Resolved*, That, beginning July 1, 1909, and until further action by the Board of Directors be had, provided the financial condition of the National Education Association will justify it, there be established three annual traveling scholarships to be awarded in accordance with the following rules:

1. Applications for appointment shall be filed, together with such documents as the candidate may desire to submit in support thereof, with the Secretary of the National Education Association on forms provided for the purpose, not later than April 1 of the year preceding that for which the appointment is asked.

2. No application shall be received from any person not an active member of the National Education Association in good and regular standing.

3. The applications and documents accompanying the same shall be transmitted by the Secretary to the Chairman of the Committee of the Council on Investigations and Appropriations as soon as practicable after April 15 in each year, and, after consideration of the applications and accompanying papers, the Committee on Investigations and Appropriations shall nominate to the Executive Committee of the National Education Association the names of the persons to be appointed as incumbents of the traveling scholarships for the year beginning July 1 next ensuing. The term of the scholarships shall be from July 1 until June 30 the year following.

4. So far as possible, one appointment each year shall be given to a principal or teacher in a normal school or teachers' training class; one to a state, city, county, or district superintendent or supervisor of schools, and one to an elementary school principal or teacher. Where no satisfactory candidate appears under one or more of the three classes above named, the Committee on Investigations and Appropriations may, at its discretion, nominate two or, if necessary, three traveling scholars from one and the same class.

5. The annual stipend of each traveling scholarship shall be \$1,000, payable in four equal instalments on the first days of July, October, January, and April.

6. In making application for appointment as traveling scholar, each candidate shall submit in connection therewith a plan of travel and study, and shall, if appointed, faithfully follow such plan under such limitations and directions as the Committee on Investigations and Appropriations may prescribe.

7. Before the expiration of the year for which a traveling scholar is appointed, each

scholar shall file with the Secretary of the National Education Association a report on his observations and educational work during the year.

8. The names and official station of all persons appointed to be traveling scholars shall be published annually in the *Yearbook* of the National Education Association.

B. *Resolved*, That the plan for three annual traveling scholarships as provided in the foregoing resolution shall not take effect for the year beginning July 1, 1909, unless the Board of Trustees shall on or before December 31, 1908, certify to the Secretary of the National Education Association that sufficient funds from current income are available for the maintenance of said scholarships as provided.

Upon recommendation of the Committee on Investigations and Appropriations the following resolution was adopted:

Resolved, That the President of the National Education Association be authorized to appoint the following members to be official representatives of the National Education Association at the First International Moral Education Congress to be held at London, England, September 25 to 29, 1908: Edwin G. Cooley, superintendent of Schools, Chicago, Ill.; Samuel T. Black, president State Normal School, San Diego, Cal.; David B. Johnson, president Winthrop Normal and Industrial College, Rock Hill, S. The ballot was so cast and Mr. Pearse declared elected as trustee for four years.

The next order of business being the election of a member of the Executive Committee for one year, a letter was read from W. T. Harris, requesting that he be not re-elected. E. E. Invitations for the convention of 1909 were then received.

Committee

On motion of Director Mott of Indiana the report was accepted and adopted.

A special committee of the National Council, consisting of James H. Baker, chairman, William O. Thompson, and Augustus S. Downing, appeared before the Board of Directors to present a request from the Council that the several preliminary reports of the special committee appointed at the Los Angeles meeting should be published and should if possible be included in the annual volume of *Proceedings*.

CHAIRMAN BAKER urged that while these reports are preliminary and incomplete, the matter submitted had been carefully prepared and is in permanent form. Additions may be made later which will not necessarily change the form of the report already made, but will be supplementary thereto. The publication of these reports is especially important since they include matter which will be needed to guide future investigations and which should be widely distributed for this purpose. He especially urged that they be included in the annual volume of *Proceedings* if it should be found possible to do so without exceeding the limits of space. But if not published in the volume, they should be printed in sufficiently large editions to supply the general demand of those interested in the several lines of investigation.

Mr. Baker referred especially to a preliminary report on the subject of "The Culture and Time Element in Education," which he had been requested to make as preliminary to a complete report on this subject. This report included a valuable classified bibliography on this subject which would be exceedingly helpful and indeed necessary for the formulation of a complete report.

A. S. DOWNING of the same committee urged the publication of the several reports

referred to in the annual volume of *Proceedings*, even tho it should be necessary to eliminate, or print in abstract only, many of the papers presented at the various department meetings. He urged that reports of the nature referred to were the results of extensive study of the subjects, had been carefully prepared, and were, therefore, of more value than the usual convention papers and discussions.

In addition, Mr. Downing urged that apart from the question of publishing these reports, the volume could be reduced in size by the elimination of much of the matter now published and by printing only abstracts of the various papers read before the Association.

A motion was made by Chairman Baker and seconded by Director Cree T. Work of Texas that the Secretary of the Association be instructed and authorized to condense the papers and discussions of the various departments sufficiently to make it possible to publish in the annual volume all of the reports made to the Council of Education for the current year; this with the understanding that the Secretary should call upon the president of each department for assistance in this work.

SECRETARY IRWIN SHEPARD, in speaking on this motion, said that the plan suggested of making abstracts of the papers of the various departments for the purpose of reducing the size of the annual volume was far more difficult than might appear at first thought. There are twenty-one different departments of the Association, representing twenty-one separate departments of educational work and interests. While it is true that few papers appearing in the volume are equally interesting to all teachers, it is believed that all papers are of value and interest for those especially connected with the work of the department in which they were presented. The members of the Department of Music Education would deem it important that all of the papers in that department be published in full in the volume of *Proceedings*, even tho it might be necessary to condense the papers read before the Department of Technical Education; while the members of the Department of Technical Education would probably take quite a different view.

While it cannot be denied that there is a great difference in the excellence of the various papers, with rare exception all are valuable and are deemed important for publication in the volume by certain, altho possibly different, classes of members. It would seem impossible to satisfy the members of the Association unless the papers were printed in full, since the members look forward to the annual volume as a complete record of the proceedings of the convention, while many active members who cannot attend the meetings keep up their membership because it secures to them a full record of the convention papers and discussions.

The Association is under great obligations to those who accept appointments on the various programs, prepare the papers, come to the conventions, oftentimes from long distances, paying their own expenses, for the purpose of contributing to the discussions of the convention. Should we decline to publish the papers carefully prepared for the conventions and kept within the limits required, we might soon find it difficult to secure speakers for the convention programs. Certain limits to papers have been fixed, namely, 3,000 words for formal papers and 1,000 words for discussions. These limits should be strictly observed and papers and discussions which exceed these limits should be returned to the writers that abridgment may be made. It is doubtful whether the Secretary or any other person ought to be authorized to make these abridgments.

DIRECTOR WILLIAM H. MAXWELL said that it was evident that the abridgment of the papers presented at the annual conventions was a matter of great difficulty and perplexity and that it was doubtful whether the Association could fairly adopt any absolute rule of instructions to this end. Mr. Maxwell then moved as a substitute for the pending motion that the matter of abridging the addresses made before the Association and of publishing the reports presented to the Council of Education be referred to the Executive Committee and the Secretary of the Association. The motion was seconded.

DIRECTOR JAMES M. GREENWOOD, in speaking on the substitute motion, urged that speakers on the various programs of the Association be requested to make abstracts of their

various papers to be submitted with the complete papers themselves so that if the volume of *Proceedings* would not contain all the papers the abstracts might be used instead.

DIRECTOR CREE T. WORK urged that the presidents of the respective departments should be requested to assist the Secretary of the Association in editing the proceedings of each department with a view of keeping them within the available limits of the annual volume.

The substitute motion by Director Maxwell was then put to vote and carried.

CHARLES R. RICHARDS of the Committee of Investigations on Manual Training Courses in the Public Schools presented to the Board of Directors request for authority to increase the number of their committee from the present number of eight to not less than fifteen or more than twenty, in order that all departments of the subject might find representation upon the committee of investigation, with a view of securing a more valuable and complete report on the subject in hand. On motion the request of Mr. Richards was granted and authority given to the committee already authorized to increase its number to not less than fifteen nor more than twenty members.

MRS. FRANCES W. LEITER of Ohio presented to the Board of Directors the following communication:

QUESTIONS PRESENTED TO THE BOARD OF DIRECTORS OF THE N. E. A. BY MRS.
FRANCES W. LEITER (ACTIVE MEMBER)

1. In creating the EDUCATIONAL DEPARTMENT OF NATIONAL ORGANIZATION OF WOMEN, was it intended that these societies petitioning for same should appear at the National Education Association sessions in their *organized capacity*; or, in the individual capacity of their members who are active members of the National Education Association?

2. Was it intended that all, or part, of the national organizations of women who were instrumental in petitioning for creation of the department should have power, *in effect*, to make this National Education Association Women's Educational Department *exclusive*, so far as other national societies of women are concerned, which also have educational bearing and have representation in the National Education Association by *active membership*?

3. Was it intended that the societies taking an initial step toward this department should, because of this initial step, continue to have controlling power in, and jurisdiction over, the department, so far as plans, policies, and elections are concerned?

4. Does it not come under the constitutional law of the National Education Association that *any* national organization of women, with active National Education Association membership, by virtue of these active members, *may voluntarily become a part of this department*—its active members having equal power with active members of all other similar societies of *vote and discussion*—whether in the list of initial organizations or not?

5. Where a national society has an educational department, are superintendents or committee members of the same department, *in state and local capacity*, eligible to active membership in the National Education Association?

On motion it was ordered that a committee of three be appointed to whom Mrs. Leiter's communication should be referred, the said committee to report at the next meeting of the Board.

The President then appointed the following committee on Mrs. Leiter's communication:

NATHAN C. SCHAEFFER, of Pennsylvania, *Chairman*.

AUGUSTUS S. DOWNING, of New York.

EDWIN G. COOLEY, of Illinois.

There being no further business the Board of Directors adjourned.

IRWIN SHEPARD, *Secretary*

REPORT OF THE SECRETARY OF THE NATIONAL EDUCATION ASSOCIATION OF THE UNITED STATES

SECRETARY'S OFFICE, WINONA, MINN., November 16, 1908

To the Board of Trustees of the National Education Association:

GENTLEMEN: In submitting report of the business of the Secretary's office for year 1907-8, attention is called to the following table which shows that the Association reached an active membership of 5,261 in the year of the Asbury Park and Ocean Grove meeting. The following year, when no meeting was held, the membership was reduced by 87, there being a loss of 644 by withdrawal and 46 by death—a total loss of 690; while there were additions of 603 new members, leaving the membership for the anniversary year 1906-7 at 5,174.

The year of the Los Angeles meeting, 1907-8, was not favorable for increasing the active membership, there being only 356 additions while there was a loss of 463 by withdrawal and 23 by death—a total loss of 486—reducing the membership by 130 to 5,044.

We are pleased to report 954 additions of new members since January 1, 1908; while the loss by withdrawal has been 271 and by death 22—a total loss of 293. This brings up the active membership to 5,705 as will appear in the following list of members. It should be noted that during these three years the losses have been largely from the members least interested in the work of the Association, while the additions have been of those who desired to identify themselves permanently with the Association and its work.

THE CLEVELAND CONVENTION

In the Secretary's report for 1907-8 (See Los Angeles *Yearbook*, p. 55) appears a statement of the changed relations with railway lines, following a decision of Interstate Commerce Commission, that the former method of collecting membership fees in the price of the convention ticket is not allowable under recent legislation by Congress. The arrangement approved by the Commission for the Los Angeles meeting, reducing the convention rate on a "Certificate Plan" to bona fide members of the Association, proved highly satisfactory; and it was supposed that the ruling would remain in force for future meetings.

The lines of the Central Passenger Association in whose territory the Cleveland Convention was held had generally opposed the certificate plan as authorized by the Interstate Commerce Commission for the Los Angeles meeting, and were unable to come to any agreement on the matter of rates until late in May, 1908, when a rate of one and one-half fare for the round trip on the "Certificate Plan" was granted for the Cleveland Convention. Soon after a Special Announcement of this rate, a single line obtained from the Interstate Commerce Commission, on *ex parte* evidence, without the knowledge of the officers of the National Education Association, and too late for a hearing or reconsideration of the same, a special ruling that the "Certificate Plan" could not apply for the Cleveland Convention and that tickets should instead be sold on the "Open Rate" plan.

The late date of the action granting a rate, the change from the "Certificate Plan" to the "Open Rate" plan, and the consequent confusion, effectually destroyed whatever prospects there had been for a large attendance at the Cleveland Convention.

The teachers of the country had generally determined their plans for the annual vacation long before the date of the first action by the railroads granting reduced rates. The attendance at Cleveland was therefore smaller than at any recent convention. The total enrollment at Cleveland was 8,328, of which number the State of Ohio furnished 5,443, leaving but 2,885 enrolled from all other states. It is noteworthy that no state outside of Ohio had as many members enrolled at the Cleveland Convention as Arizona had at the Los Angeles Convention the year before. It was also a matter of surprise that Illinois

had but 302 enrolled at Cleveland, while there were 761 enrolled from that state at Los Angeles. Indiana sent to Los Angeles 135, and only 146 to Cleveland. One encouraging feature of the Cleveland enrollment was that 744 enrolled as new active members.

The meetings of the General Sessions and of the Departments were all well attended, the addresses and discussions being regarded as the best ever presented at any convention.

The City of Cleveland had made the most generous provision for entertaining 40,000 members, and spared no pains in providing for the comfort and entertainment of the Convention and for the success of all of the meetings.

The Board of Directors shall consist of a President, the First Vice-President, the Secretary, the Treasurer, the chairman of the Board of Trustees, and one additional member from each state, territory, or district, to be elected by the active members for the term of one year, or until their successors are chosen, and of all life directors of the National Educational Association. and contracts of the said corporation so existing, to the same effect as if such new corporation had itself incurred the obligation or liability to pay such debt or damages, and no action or proceeding before any court or tribunal shall be deemed to have abated or been discontinued by reason of this act.

SEC. 11. That Congress may from time to time alter, repeal, or modify this act of incorporation, but no contract or individual right made or acquired shall thereby be divested or impaired.

TWENTY-THIRD ANNUAL REPORT OF THE BOARD OF TRUSTEES OF THE NATIONAL EDUCATION ASSOCIATION

FOR THE YEAR JULY 1, 1908, TO JUNE 30, 1909

DENVER, COLORADO, July 1, 1909

To the Board of Directors of the National Education Association:

The Board of Trustees of the National Education Association has the honor to submit its report on the Permanent Fund of the Association for the year ending June 30, 1909.

The amounts collected as income from the Permanent Fund and the disposition made of the income are shown in the following Income Account.

The changes in the investments held for the Permanent Fund are shown in the following Principal Account.

There have been no additions to the principal of the fund during the year by transfer from the current funds of the Association other than the amount of \$72—being the accrued interest (\$49.50) on \$9,000 New York City bonds, purchased June 12, 1908, and the fee of the First Trust and Savings Bank of Chicago on this investment (\$22.50)—erroneously charged to Principal Account in the report of 1908.

The present state of the investments held for the Permanent Fund is shown in the following Statement of Securities held for the Permanent Fund.

During the year three Chicago real estate mortgages and one Lemont, Illinois, school bond have been paid off and the proceeds invested, as shown, in \$10,000 3½ per cent. convertible bonds of the Pennsylvania Railroad Company, and \$10,000 fifty-year 4 per cent. bonds of the Chicago, Indiana and Southern Railway Company, guaranteed both as to principal and interest by the Lake Shore and Michigan Southern Railway Company.

The Permanent Fund amounts, at this date, to \$170,100.

Statement A shows the net income of the property at 4762 Lake Avenue, Chicago, Illinois, title to which, as previously reported, was taken by the Trustees under proceedings for foreclosure of mortgage. Every effort is making to dispose of this property.

The operations of the year, and the present state of the Permanent Fund, are set out in detail in the accounts and statements which follow:

ever of success has attended this Association. I refer to that officer of the Association who has served it so long and well—Secretary Irwin Shepard. The president comes and serves but a single year, and but for this officer his lot would be a hard one indeed.

And now I have the honor of presenting to you the president-elect, Hon. James Y. Joyner, State Superintendent of North Carolina for three terms, whose work I know. When I say to you that he will bring to his duties as President of this Association the same earnestness and the same efficiency that he has shown in his work as state superintendent of North Carolina, I can pay him no greater tribute. I take pleasure in presenting to you President Joyner.

PRESIDENT JOYNER: Ladies and Gentlemen: I feel fortunate in receiving the gavel of authority from my distinguished friend who has wielded it so acceptably. To all of my friends I wish to express my heartfelt thanks for this high honor that you have conferred, for this national recognition of the struggle that my people yonder in the oldest part of this, our noble country, are making for the education of all their people. The honor is increased by your selection of me over such worthy competitors, but the joy is weakened by the fact that I cannot share this office and its honors with them. I wish to assure you that I shall bring to the discharge of my duties such ability as I have. I take them up with a sincere desire to serve well the great cause for which our Association stands in this great Republic of ours.

The report of the committee was received, and the Secretary was instructed, by unanimous vote, to cast the ballot of the active members for the nominees as reported by the committee.

Charles H. Keyes, of the Committee on Resolutions, in the absence of the chairman of that committee, presented the report of that committee as follows which was on motion adopted as read:

DECLARATION

The National Education Association, now holding its Forty-seventh Annual Convention in Denver, representing teachers and friends of education in every state of the Union, makes the following Declaration of Principles and of Aims:

1. A free democracy cannot long continue without the assistance of a system of state-supported schools, administered by the chosen agents of the people and responsible to the people for its ideals, its conduct, and its results. The commanding position of the American people is due largely to the general diffusion of knowledge and culture by its free schools.

2. Our system of state-supported schools must include elementary schools, secondary schools, schools for the training of teachers, colleges, and universities. The changed conditions of the twentieth century also demand the establishment of free schools the purpose of which shall be the training of our youth for commerce and the industries, as well as for the professions.

3. The purpose of our system of free common schools must continue to be chiefly culture for the individual and the transmission to posterity of the results of the investigations and deliberations of the past. Our schools must advance along the lines of educational democracy in the sense that they must provide equal educational opportunities for all. Altho they must give practical preparation not only for the professions, but also for commercial life, the demands of any part of the business world that courses of study be subordinated to particular interests is not in accord with the proper aims of a national system of common schools.

4. A system of common schools that will meet the needs of the times must be democratic in its purpose and its administration; must recognize the importance of expert supervision, of better and more numerous high schools, of better and more numerous schools for the training of teachers, of a merit system for the appointment and promotion of teachers; and it must exclude fraternities and secret organizations of every sort from the social life of the school.

5. The common schools of our country must recognize more fully than ever the necessity of training our youth for citizenship. The perpetuation of democracy depends upon the existence in the people of that habit of will which is justice. Liberty under law is the process for attaining justice which has thus far been most successful among civilized men. The call to citizenship is a call to the exercise of liberty under law, a call to the limitation of liberty by law, and a call to the pursuit of justice, not only for one's self but for others.

6. The National Education Association indorses the purpose of the American School Peace League. The Association believes that the principles of the League will make for effective citizenship, and urges all teachers to acquaint themselves with the work of the League and to co-operate with its efforts and aims.

7. The increased tendency to congestion of population in cities makes necessary greater and more systematic attention to the physical development of our children. No vigorous race of people has long maintained a high state of civilization under conditions that did not make for the physical, as well as the mental and moral, development of its youth. The Association recommends that provision be made by the United States Bureau of Education for effective promotion of physical education thru the diffusion of scientific information on this subject.

8. The National Education Association approves the ever increasing demand for better qualified teachers in the common schools. This higher standard must lead logically to a longer tenure and to a compensation more nearly commensurate with the quality of preparation and with the nature of the service required.

9. The National Education Association heartily indorses the use of school buildings and all school equipment for community interests and social betterment.

10. The National Education Association indorses the movement to consolidate the rural district schools wherever practicable, and expresses the hope that this movement will be encouraged until the children of rural communities shall enjoy the benefits of public education to an extent approximating those now supplied to children of urban communities.

11. The National Education Association gives its hearty indorsement to the work of the National Bureau of Education, the Carnegie Foundation, the General Education Board, and all associations, institutions, and organizations that are working to develop and promote the educational interests of the country.

Respectfully submitted,

EDWIN G. COOLEY, of Massachusetts, *Chairman*

JOHN H. PHILLIPS, of Alabama

CHARLES H. KEYES, of Connecticut

AUGUSTUS S. DOWNING, of New York

Committee on Resolutions

E. O. Vaile, of Illinois, offered the following resolution, and moved its adoption. The motion was duly seconded.

Resolved, That a committee of seven be appointed by the chair to consider and recommend at our next meeting what, if any, new simplified spellings should, in its judgment, be adopted by this Association in its printed literature.

On motion of John MacDonald, of Kansas, the resolution of Mr. Vaile was laid on the table.

NATHAN C. SCHAEFFER, of Pennsylvania: Mr. President, I wish to bring to the

attention of the members a matter which has troubled the officers of this Association for several years. With your permission, I will read a brief statement of the situation, which has been prepared by the Secretary, and move the adoption of the resolution therein contained.

At the time the Association was reincorporated by a special Act of Congress it was found impracticable to introduce into the Special Act all the provisions of the old constitution. Such provisions were therefore transferred to the By-Laws. In making such transfer, it was the purpose not to make any changes in either meaning or phraseology. Consequently it is found that there are a number of inconsistencies and conflicts which should be corrected, and a few changes that should be made. In order that this matter may be carefully considered and that the desired amendments may be acted upon at a future meeting,

Resolved, That a committee of five be appointed by the President to formulate the desired amendments to the By-Laws so that the same may be submitted at the next annual meeting and be finally considered at the business meeting in 1911.

The motion was seconded and carried by unanimous vote of the convention.

The committee appointed by President Harvey is as follows:

E. Oram Lyte, principal, First State Normal School, Millersville, Pa., *Chairman*.

J. Y. Joyner, state superintendent of public instruction, Raleigh, N. C.

E. G. Cooley, president, D. C. Heath & Co., Boston, Mass.

Nathan C. Schaeffer, state superintendent of public instruction, Harrisburg, Pa.

William H. Maxwell, superintendent of schools, New York, N. Y.

CARROLL G. PEARSE, of Wisconsin: There is a matter which has been spoken of a number of times by persons in informal discussion, relative to the disadvantage of having a new Board of Directors, or one so largely new, each year. It has occurred to a number of members that it might be desirable if the directors from each state should serve for a longer time, perhaps for three years, one-third to retire each year. As this would require an amendment to the Articles of Incorporation, I offer the following resolution:

Resolved, That the Executive Committee of this Association be and hereby is directed to seek at the hands of the Congress of the United States, such amendment of that paragraph of Section 6 of the Act of Incorporation which relates to the Board of Directors and their selection as shall provide that the directors by election shall serve for three years, one-third of such directors being chosen each year.

I move the adoption of this resolution. (Seconded.)

AUGUSTUS S. DOWNING, of New York: I move as an amendment that we refer this matter to the Committee on Revision created under the resolution just adopted.

MR. PEARSE: I am entirely willing that my motion shall stand so amended.

The amendment was also accepted by the member who seconded the motion to adopt.

After discussion as to the advisability of referring the matter to a committee or deciding it at the present meeting, J. A. Whiteford of Missouri moved that Mr. Pearse's resolution as amended be laid upon the table. The motion was seconded and carried by a vote of 135 to 54.

W. R. Callicott, of Colorado, introduced the following resolution:

Resolved, That a committee of five be appointed by this Association to investigate and report at the next session on the subject of "Humane Education in the Public Schools."

The resolution was, on motion, laid upon the table.

EDWIN G. DEXTER, Commissioner of Education of Porto Rico: I rise to propose the following resolution, and move its adoption:

Resolved, That the National Education Association place itself on record as favoring the granting of immediate citizenship to the Porto Ricans.

This resolution has no political bearing. It has a very important educational bearing. An important aim of education is education for citizenship. We are trying to educate 100,000 children in Porto Rico without being able to lay before them this aim of citizenship as a

probable realization on their part in the not-far-distant future. Ten years ago American occupation of the Island made the Porto Rican a man without a country. Since that time they have been asking that citizenship be granted to them by the United States.

The motion was duly seconded.

JOHN W. ABERCROMBIE, of Alabama: I move to amend the resolution just offered by adding a statement that we also favor immediate independence for the Philippines.

MISS ELIZABETH SHIRLEY, of California: I would add to the resolution a provision that suffrage be extended to the women of the United States.

AUGUSTUS S. DOWNING, of New York: This resolution introduced by our friend from Porto Rico was before the Committee on the Resolutions of this Association, and was discussed most carefully. We were all agreed that if this resolution were adopted, it would involve the Association in just such an argument as we are involved in now. Commissioner Dexter did not intend that the right of suffrage should be given to the Porto Ricans. I move that the resolution be laid upon the table.

Seconded and carried.

JAMES M. GREEN, of New Jersey: I offer the following resolution and move its adoption:

Resolved, That we express our appreciation of the hospitality shown to our Association by the citizens of Denver, and of the efficiency of the Local Executive Committee in making the arrangements for this meeting.

The motion was seconded and carried after some discussion.

There being no further business, the meeting adjourned.

IRWIN SHEPARD, *Secretary*

MINUTES OF MEETING OF BOARD OF DIRECTORS OF THE NATIONAL EDUCATION ASSOCIATION FOR THE YEAR 1908-9

The annual meeting of the Board of Directors was called to order by President Lorenzo D. Harvey in Trinity Methodist Church, at 3:30 P. M., July 5, 1909. The following members responded to roll-call:

L. D. Harvey, Wisconsin; Arthur H. Chamberlain, California; Nicholas Murray Butler, New York; Irwin Shepard, Minnesota; G. A. Lofton, representing the Board of Education, Tennessee; Elmer Ellsworth Brown, District of Columbia; John W. Cook, Illinois; James M. Green, New Jersey; James M. Greenwood, Missouri; E. O. Lyte, Pennsylvania; Nathan C. Schaeffer, Pennsylvania; A. J. Matthews, Arizona; Duncan MacKinnon, California; Charles E. Chadsey, Colorado; Charles H. Keyes, Connecticut; Miss Clem Hampton, Florida; Walter R. Siders, Idaho; Walter R. Hatfield, Illinois; T. A. Mott, Indiana; John MacDonald, Kansas; Warren Easton, Louisiana; Payson Smith, Maine; Irving O. Palmer, Massachusetts; S. L. Heeter, Minnesota; E. E. Bass, Mississippi; A. E. Reed, Nebraska; R. R. Larkin, New Mexico; A. S. Downing, New York; E. D. Cameron, Oklahoma; Reed B. Teitrick, Pennsylvania; D. B. Johnson, South Carolina; F. H. Hoff, South Dakota; I. C. McNeill, Tennessee; Cree T. Work, Texas; Edward T. Mathes, Washington; H. C. Buell, Wisconsin; A. D. Cook, Wyoming.

Directors present, thirty-seven.

The Secretary reported that several state directors who were unable to attend the meeting had written asking to have other active members from their respective states appointed in their places; and also that in a few other instances directors had been delayed in reaching the convention, leaving vacancies in the Board.

Upon motion duly seconded the following appointments to fill vacancies were made:

J. H. Phillips, of Birmingham, Ala., to succeed J. W. Abercrombie, absent.

B. W. Torreyson, of Arkansas, to succeed George B. Cook, absent.

B. K. Purdum, of Maryland, to succeed M. Bates Stephens, resigned.

John L. Alger, of Rhode Island, to succeed Herbert W. Lull, absent.

D. H. Christensen, of Utah, to succeed William Allison, resigned.

Thomas C. Miller of West Virginia, to succeed R. A. Armstrong, absent.

As all of these appointees were present the total number of directors present was forty-three.

Upon suggestion by the President, it was moved and carried that the reading of the minutes of the last meeting be omitted and that they be approved as printed in the volume of *Proceedings*.

The report of the Board of Trustees, having been printed and distributed among the members, was upon motion received and accepted by the Board of Directors, and recommended for adoption by the active members.

The report of the Treasurer, Arthur H. Chamberlain, as printed and distributed among the members, was on motion accepted and approved by the Board of Directors, and recommended for adoption by the active members.

The Treasurer called the attention of the members to the fact that the receipts of the past year were only \$1,451.40 in excess of the necessary expenditures for the year.

Director Nathan C. Schaeffer, Chairman, presented the report of the committee appointed to consider the communication addressed to the Board of Directors by Mrs. Frances W. Leiter, at its meeting July 2, 1908.

To the Board of Directors of the National Educational Association:

In making its report, the committee, to whom were referred the questions of Mrs. Frances W. Leiter, deems it proper to annex to the several questions the replies prepared for your consideration.

1. "In creating the EDUCATIONAL DEPARTMENT OF NATIONAL ORGANIZATION OF WOMEN, was it intended that these societies petitioning for same should appear at the National Education Association sessions in their *organized capacity*, or in the individual capacity of their members who are active members of the National Education Association?"

In creating the Educational Department of the National Organization of Women, it was not intended that the societies petitioning for the same should appear at the National Education Association sessions in their organized capacity. Under the Charter and By-Laws their members must become active members of the National Education Association in order to secure the right to vote, to hold office, and to claim the privilege of the floor at the meetings of the new department.

2. "Was it intended that all, or part, of the national organization of women who were instrumental in petitioning for creation of the department should have power, *in effect*, to make this National Education Association Women's Educational Department *exclusive*, so far as other national societies of women are concerned, which also have educational bearing, and have representation in the National Education Association by *active membership*?"

The new department cannot be made exclusive, but all active members of the National Education Association are members of said department.

3. "Was it intended that the societies taking an initial step toward this department should, because of this initial step, continue to have controlling power in, and jurisdiction over, the department, so far as plans, policies, and elections are concerned?"

The societies taking the initial steps in the organization of the department cannot have controlling power in and jurisdiction over the department, so far as plans, policies, and elections are concerned. Their members can become members of the new department only by becoming members of the National Education Association.

4. "Does it not come under the constitutional law of the National Education Association that *any* national organization of women, with active National Education Association membership, by virtue of these active members, *may voluntarily become a part of this department*—its active members having equal power with active members of all other similar societies—*of vote and discussion*—whether in the list of initial organizations or not?"

5. "Where a national society has an educational department, are superintendents, or committee members, of the same department, *in state and local capacity*, eligible to active membership in the National Education Association?"

Any national organization having an educational department, or distinctive educational aims, can join the National Education Association, as libraries and other educational organizations now join the National Education Association. They can send a representative who will be permitted to speak (and vote) as other active members in case the organization acquires active membership.

If the above is not satisfactory to the organizations, they can hold the same relation to the National Education Association as the Herbart Society for the Study of Education now holds. Its program is printed and circulated with the National Education Association program, but its proceedings are printed separately; and no place is given to these in the annual volume of *Proceedings*, nor is any money appropriated for expenses out of the treasury of the National Education Association.

Respectfully submitted,

NATHAN C. SCHAEFFER
AUGUSTUS S. DOWNING
EDWIN G. COOLEY

Upon motion, the report of the committee was received and adopted.

The President next called for the report of the Committee on Investigations of Manual-Training Courses, which was presented by the Chairman, Charles H. Keyes.

CHAIRMAN KEYES: Your committee recommends that copies of this report be printed and circulated as soon as possible. Two years ago at a joint session of the Departments of Manual Training, of Art Education, and of Child-Study, a paper was read showing the inconsistency of allowing courses of study to be built by allowing the manual-training teacher to suggest one part, the art teacher another, and so on. This practice is responsible for most of the incongruous courses of study that are today being inflicted upon schools throuout the country.

A committee of investigation was appointed to consider and report on courses of Manual Training in Public Schools, and this Board of Directors appropriated \$500 for carrying on the work for two years. It was felt that the committee was not large enough nor representative enough. Last year we asked the Board of Directors to increase our membership to not less than fifteen nor more than twenty. Since then the committee has

held meetings in Albany, Chicago, New York, Springfield, and elsewhere. The committee has taken the position that it would not use any of the money which you appropriated for the purpose of paying the expenses incurred by members in attending these meetings, and so we have submitted bills only for printing, telegrams, postage, and stenographic work—practically \$175. At least \$325 of the amount you appropriated is still unexpended. This is probably ample to cover the cost of printing the report if not more than 5,000 copies are wanted. If the edition has to be a thousand larger, the amount might fall short from \$25 to \$100. We propose to turn this balance of \$325 back into the treasury. The individual members have paid their own expenses. Not one cent has been expended for transportation or personal expenses. I hope, in light of the statement that has been made, you will decide to print the report, which covers about 64,000 words and, it is estimated, would make about an eighty-page document.

Our purpose in wishing to have this report printed and distributed is that we may have the criticism of the members, destructive, if it is deserving of that sort, or constructive, if that is what is needed. I think the character of that committee is warrant for my saying that I believe it is one of the most valuable reports prepared by any committee commissioned by this body in the last twenty years. It seems to me that it does for the cause of manual and industrial training a service that is probably as valuable or very much more valuable than was the report of the Committee of Seven in the field of history.

Upon motion, it was decided to carry out the request of the committee, and the Secretary was authorized to print an edition sufficiently large to supply the active members.

Alfred Bayliss, of Illinois, Chairman of the Committee on Reorganization of Departments, being called upon for the report of his committee, stated that some matters which had come up at a late date made it advisable to postpone the presentation of their report until the meeting of the new Board of Directors. Upon motion, the request was granted.

PRESIDENT HARVEY: We are now ready to take up any new business.

SECRETARY SHEPARD: We have two communications with reference to the traveling scholarships, adopted by resolution at the last meeting of the Board of Directors. In both of these communications I am asked for a statement of conditions necessary to enable the writers to qualify for appointment. As the conditions have never been formulated, I was unable to answer their inquiries, so simply present their letters.

DIRECTOR NICHOLAS MURRAY BUTLER, of New York: In view of the fact that the establishment of these traveling scholarships must be dependent upon whether funds for their maintenance are available, I suggest the reference of these communications, and any similar ones that may be received, to the Committee on Investigations and Appropriations of the National Council for recommendation. In accordance with the administrative plan for these scholarships adopted last year, this committee has full authority to put the plan into effect whenever it is determined by the Trustees that the necessary funds for the maintenance of the scholarships are available.

On motion the recommendation of Director Butler was adopted.

SECRETARY SHEPARD: In 1906 action was taken establishing the Department of Technical Education. Some doubt was expressed as to the wisdom of creating a department on the lines announced, but the department was created. A tentative program was presented at Los Angeles, but with some difficulty. Again at Cleveland a partial program, and a very good one, was presented. This year the president, who had been prominent in urging the establishment of the department, and who had been its president each year since organization, Dean Monin, of the Armour Institute of Chicago, has found it impossible to prepare a program, and writes a letter saying that he does not see any use of continuing the department as an independent organization, and recommends that it be combined with the Department of Manual Training.

Upon motion of Director Augustus S. Downing, of New York, the matter was referred to the Committee on Reorganization of Departments, of which Alfred Bayliss, of Illinois, is chairman.

Secretary Shepard brought to the attention of the Board of Directors the fact that a misunderstanding had arisen with the Department of Indian Education because of the enforcing of the rule that admission to department meetings should be limited to members only. He explained that Miss Reel's relations with the Department of the Interior made

her position rather unusual. The Department of the Interior wishes to have all meetings of her department open to the public, which would be contrary to the rule being enforced at all other department meetings. Secretary Shepard suggested that inasmuch as this condition was not thoroly understood before the convention, it might be advisable, in order to relieve the present embarrassment, to suspend the rule regarding admission, so far as the Department of Indian Education is concerned, during the remainder of the convention.

On motion of Director Charles H. Keyes, of Connecticut, the rule regarding admission was waived for the remainder of the convention, so far as the Department of Indian Education was concerned, and the entire matter referred to the Committee on Reorganization of Departments.

DIRECTOR NICHOLAS MURRAY BUTLER, of New York, Chairman of the Board of Trustees: I am instructed by the Board of Trustees to report a design for an official seal for our corporation. It is provided in the Act of Incorporation that there shall be a seal, and the Board of Directors at the meeting in Los Angeles instructed the Board of Trustees to procure such a seal. I have here a few prints of a design by Frank D. Millet which shows the "little red schoolhouse" as its distinctive feature. I am instructed by the Board of Trustees to report this design and to recommend its adoption as the official seal of the Association.

On motion, the seal was adopted as the official seal of the Association.

Director Butler then brought up the matter of electing to corresponding membership in the Association certain educators who live and work in foreign countries. He presented a list of distinguished gentlemen whom he, in consultation with other members of the Association, had selected as worthy of being elected to such a position, giving a brief outline of the qualifications of each gentleman and his official position. Upon motion, the following named educators were elected as corresponding members of the National Education Association:

The President, being authorized by motion to appoint the committee, named the following: Director J. M. Greenwood, of Kansas; Director D. B. Johnson, of South Carolina; Director C. G. Pearce, of Wisconsin.

Director A. S. Downing presented the report of the Committee on Traveling Scholarships, appointed by the former Board of Directors, as follows:

To the Directors of the National Education Association:

The Committee on Investigations and Appropriations to whom was referred the applications of Miss Amalie Hofer and Mrs. Mary D. Bradford, both as candidates under the National Education Association's Traveling Scholarship Act of 1908, submit the following statement of facts: (1) Amalie Hofer asks to be sent to Switzerland for the purpose of translating the complete works of Pestalozzi, a greater part of which is partial dialect writing; (2) Mary D. Bradford wishes information as to what is necessary to qualify for a traveling scholarship in order that she may make application in due form.

In view of the uncertainty of the financial outlook of the National Education Association, the Committee recommends that the said applicants be informed by the Secretary of the Association that no appropriation can be made to the Traveling Scholarship Investigation at this session.

Respectfully submitted,

J. M. GREENWOOD, *Chairman*
AUGUSTUS S. DOWNING

NICHOLAS MURRAY BUTLER
J. H. PHILLIPS
F. A. FITZPATRICK

The report was on motion accepted and adopted.

The Committee on Investigations and Appropriations of the National Council, being called, reported that they had no recommendations to make.

Alfred Bayliss, of Illinois, Chairman of the Committee on Reorganization of Departments, created by vote of the active members at their annual meeting at Detroit, Mich., July 11, 1901, next presented the following report:

CHAIRMAN BAYLISS: The report of this Committee has been in abeyance for a number of years, as most of you are aware. The reason for this might be interesting if the hour were not late and time were not so valuable. The Committee received a notice early in the year from President Harvey to formulate some report, and the following is the result:

REPORT OF COMMITTEE ON REORGANIZATION OF DEPARTMENTS

To the Board of Directors of the National Education Association:

Your Committee on the Reclassification of the Departments of the National Education Association presents the following report:

The Committee recommends:

First, That the Department of School Administration be consolidated with the Department of Superintendence; the Department of Child-Study with the Department of Normal Schools; the Department of Business Education and Science Instruction with the Department of Secondary Education; the Departments of Manual Training and of Rural and Agricultural Education with the Department of Technical Education, and the Department of Kindergarten Education with the Department of Elementary Education.

It further recommends that the Departments of Art Education, Music Education, Special Education, and the Library Department be discontinued as such, their subjects being intimately associated with the other subjects of Elementary, Secondary, and Higher Education.

Second, That the Department of Indian Education be cordially invited to continue to hold its meetings with the National Education Association, and to maintain an affiliated relation corresponding to that of other societies and associations now meeting with this Association.

Third, That the consolidated Department of Child-Study and Normal Schools be hereafter designated as the Department of Professional Preparation of Teachers.

Fourth, That the Department which shall include Manual Training, Rural and Agricultural Education, Technical Instruction, and Domestic Science (the last named not represented as such in the present organization) be designated as the Department of Industrial Education.

Fifth, That the Department of Women's Organizations be designated as the Department of School Patrons.

Sixth, That the regular Departments of this Association be as follows until otherwise ordered by the Board of Directors:

1. The National Council of Education.
2. The Department of Superintendence.
3. The Department of Professional Preparation of Teachers.
4. The Department of Elementary Education.
5. The Department of Secondary Education.
6. The Department of Higher Education.
7. The Department of Industrial Education.
8. The Department of School Patrons.

Your Committee believes that the adoption of the foregoing recommendations will, without too great sacrifice of potential contributions of permanent value, materially reduce the cost of publication and distribution of the *Proceedings* of the Association—a matter of primary importance at this time; that it will lessen the confusion of interests and dissipation of energy consequent upon the present multiplicity of departments, and clear the ground for a more logical and efficient future development.

Furthermore, that inasmuch as the future may disclose the need or wisdom of departments based upon groups of related subjects, especially, perhaps, in secondary, higher, and technical education, the Committee is of the opinion that, if directed to continue this work, the membership should be increased by the addition of the President of the Association, the retiring President, and the former President upon whose initiative this report was undertaken, the last two of whom have aided this work so far done at every step of its progress.

Respectfully submitted,

(Signed) ALFRED BAYLISS, *Chairman*

NICHOLAS MURRAY BUTLER

the Board of Directors should act until they have had time to hear from the members of the Association. I am myself undecided as to some features of the report. I should like more information before I am compelled to act. We should be given this opportunity to think over the matter and have it in print before us for a year.

DIRECTOR CHARLES H. KEYES, of Connecticut: I believe it will be to the advantage of the Association if further combinations can be made for the ensuing year. If Director Brown's suggestion is acted upon, we will have all these several programs for the next year. We should make final disposition of this matter before the departments elect their officers for the ensuing year.

President Joyner announced that two motions were before the house—one to accept the amended report, and a substitute for that motion to the effect that the report be printed for the consideration of the active members during the year and voted upon at the next meeting.

The substitute was voted upon first, it being necessary to take the count. The substitute was lost by a vote of 23 to 15.

DIRECTOR BROWN: Just one word explaining why I shall be obliged to vote against the report. I am in favor of the general sort of reorganization presented by the report. But while this report has been considered some years by the Committee, it has been considered less than thirty minutes by the Board of Directors, and yet it is the most far-reaching reorganization of the Association that has been undertaken in years.

The original motion as amended was then voted upon and adopted.

DIRECTOR NICHOLAS MURRAY BUTLER, of New York: Mr. President: I move that the Committee be continued and enlarged by the addition of yourself, sir, the retiring President, Director L. D. Harvey, of Wisconsin, and Director James M. Green, of New Jersey.

The motion was carried.

DIRECTOR KEYES: I suppose there will be no change in the programs for the next year?

PRESIDENT JOYNER: My understanding is that the programs for the next year will consist of the number of departments contained in the report as amended and adopted—namely, nine.

SECRETARY SHEPARD: I should like to ask who are to be the officers of the new departments?

DIRECTOR MCNEILL: That is taken care of very nicely by the exact wording of the report. It says "consolidated with;" therefore the officers of the department that is retained are the officers who would hold for the new department. There might be some difficulty, however, where you have given a new name to the combined department.

DIRECTOR AUGUSTUS S. DOWNING, of New York: I move that the entire matter of carrying out the action of the Board of Directors be referred to the Executive Committee with power to act.

Seconded and carried by unanimous vote.

The Committee appointed at the opening of the session to nominate candidates for the vacancies in the membership of the National Council presented their report, which was as follows:

To the Members of the Board of Directors:

Your Committee finds that the terms of membership of the following named expire with this meeting:

JOHN MACDONALD, Topeka, Kansas
ALMA L. BINZEL, Salt Lake City, Utah
M. E. DAILEY, San José, California
S. L. HEETER, St. Paul, Minnesota
CHARLES MCKENNY, Milwaukee, Wisconsin
W. T. HARRIS, Washington, D. C.

BENJAMIN IDE WHEELER, Berkeley, California
WILLIAM H. MAXWELL, New York, N. Y.
E. G. COOLEY, Boston, Massachusetts
H. J. ROGERS, Albany, New York

The Committee recommends that all of the above named be re-elected for the term of six years excepting as follows:

That C. O. MERICA, of Laramie, Wyo., be nominated to succeed M. E. Dailey, of California, and

That W. R. SIDERS, of Pocatello, Idaho, be nominated to succeed William H. Maxwell, of New York.

J. M. GREENWOOD
D. B. JOHNSON
C. G. PEARSE, *Secretary*

Upon nomination of Director Nicholas Murray Butler, of New York, J. M. Greenwood was elected member of the Board of Trustees for four years, to succeed himself.

Upon nomination of Director Downing, J. H. Phillips, of Alabama, was elected member of the Executive Committee for one year, to succeed himself.

PRESIDENT JOYNER: The next order of business is the very interesting one of receiving invitations for the Convention of 1910. Will you take any action as to limitation of speeches?

Upon motion of Director Greenwood, the speeches of invitation were restricted to five minutes each.

Permission was granted Director James M. Green to speak first. He assured the Association that they would be welcome to meet in Asbury Park if they decided to go to the eastern coast next year.

Director Duncan MacKinnon, of California, in a few words introduced Thomas E. Hayden, member of the board of education of San Francisco, who gave the Association a most cordial invitation to meet in San Francisco in 1910. Among the other inducements offered was the statement that the state of California would guarantee 7,000 members for the Association at \$2.00 each, and also that a round-trip railroad rate of one fare would be secured from the transportation lines.

Stratton D. Brooks, of Boston, assured the Association that Boston enjoyed having the teachers with them in 1903, and would be glad to see them again at the earliest date that they wished to come.

Curt M. Treet, secretary of the Chicago Association of Commerce, was introduced and spoke earnestly in support of the invitation of Chicago for the Convention of 1910.

Secretary Shepard reported the receipt of letters of invitation from different cities, as follows: New Orleans, Niagara Falls, and Cincinnati, but no one was present to support these invitations personally.

Director Carroll G. Pearse introduced Mr. Cannon, of Milwaukee, who invited the Association to come to that city in 1910. He spoke of the central location of the city, and the fact that 1,000 successful conventions had been held there in the last twelve years, and 72 this year.

There was some discussion as to whether the matter of selection of the next meeting-place should be referred directly to the Executive Committee with power to act, or whether a vote of preference be taken, this report not to be binding in case the investigations of the Executive Committee make it seem best to hold the meeting at some place other than the one preferred by the majority of the directors. It was finally decided on motion to take a vote of preference. The result of a vote of preference by roll-call was: San Francisco, 21; Milwaukee, 10; Boston, 4; not voting, 3.

Director Greenwood offered the following resolution in honor of Dr. Harris:

Resolved, That the President, in the name of the Association, send a message of love and affection to Dr. William T. Harris as a token of our appreciation of him as a man, and of his great service to the cause of education in the United States and thruout the world;

and that it is our earnest hope that he will soon be restored to health, to the end that we may have him with us in our deliberations to give us counsel and inspiration.

Following the unanimous passage of the resolution, Director Butler read a telegram which he had received from Dr. Harris extending love and best wishes to the Association corporately and individually.

The meeting then adjourned.
